Missouri Highways and Transportation Commission Members

Chair

Name: Stephen R. Miller

Appointed: 08/11/2009

Term Ending: 03/01/2011

Political Party: Republican

Residence: Kansas City

Vice Chair

Name: Lloyd J. Carmichael

Appointed: 04/02/2009

Term Ending: 03/01/2015

Political Party: Democrat

Residence: Springfield

Name: Kenneth H. Suelthaus

Appointed: 06/01/2010

Term Ending: 03/01/2015

Political Party: Republican

Residence: St. Louis

Name: Gregg C. Smith

Appointed: 06/03/2013

Term Ending: 03/01/2019

Political Party: Democrat

Residence: Clinton

Name: Vacant

Appointed:

Term Ending: 03/01/2017

Political Party: Democrat

Political Party: Republican

Residence:

MoDOT Leadership

Director – Dave Nichols

As **director** of the Missouri Department of Transportation, Dave Nichols oversees the agency responsible for designing, building, operating and maintaining Missouri's transportation system – the seventh largest in the United States with more than 33,000 miles of highway and 10,000 bridges. The agency also works to improve airports, river ports, railroads, public transit systems and pedestrian and bicycle travel.

Chief Engineer – Ed Hassinger

As the key assistant to the MoDOT director, the **chief engineer** has input on overall department decisions at the Missouri Department of Transportation as well as overseeing engineering operations such as transportation planning, construction and maintenance. This position reports directly to the director and serves as the primary advisor regarding engineering and business issues. The chief engineer handles MoDOT's day-to-day operations.

Chief Financial Officer - Roberta Broeker

As **chief financial officer**, Roberta Broeker reports to the department director and oversees MoDOT's financial and administrative operations. She manages the agency's System Facilitation Team, which includes Equal Opportunity and Diversity, Information Systems, Human Resources, General Services, Financial Services, Motor Carrier Services and Risk and Benefits Management.

Section 1 – Customer Contact Information

Missouri Department of Transportation Contact Information

Northwest District

Mr. Don Wichern, District Engineer
3602 North Belt Highway
St. Joseph, MO 64506-1399
Tel.: 816-387-2350
Fax: 816-387-2359

Northeast District

Ms. Paula Gough, District Engineer
1711 South Highway 61
Hannibal, MO 63401-6051
Tel.: 573-248-2490
Fax: 573-248-2467

Kansas City District

Mr. Dan Niec, District Engineer
600 Northeast Colbern Road
Lee's Summit, MO 64086-4712
Tel.: 816-622-6500
Fax: 816-622-0699

Central District

Mr. David Silvester,
District Engineer
1511 Missouri Boulevard
P.O. Box 718
Jefferson City, MO 65102-0718
Tel.: 573-751-3322
Fax: 573-522-1059

St. Louis District

Mr. Greg Horn,
District Engineer
1590 Woodlake Drive
Chesterfield, MO 63017-5712
Tel.: 314-275-1500
Fax: 314-340-4119

Central Office

Mr. Dave Nichols, Director
P.O. Box 270
Jefferson City, MO 65102-0270
Tel.: 1-888-ASK-MoDOT
Fax: 573-751-6555

Section 2 – Introduction, Public Involvement, and Reference Information

Missouri Statewide Transportation Improvement Program

In the past ten years, MoDOT has completed 4,553 projects worth \$12.1 billion at 5 percent under budget with 80 percent of 2013 construction projects finished on time or ahead of schedule. Missourians have enjoyed smoother, safer roadways and given MoDOT an 85 percent satisfaction rating. However, reduced transportation funding coupled with rising construction costs has Missouri facing a stark reality for transportation.

The reasons for the funding downturn are many. Fuel tax revenues have become a diminishing revenue stream as cars become more fuel efficient and as people drive less, while the costs of doing business are increasing. Inflation has decreased MoDOT's purchasing power by more than 50 percent. What was 17 cents (state fuel tax per gallon) of purchasing power in 1992, the last time fuel taxes were increased, is now about eight cents and decreasing each year.

MoDOT projects its annual construction program - which just a few years ago was \$1.3 billion - will be just over \$700 million in 2015, before dropping to \$325 million per year from 2017 through 2019. The baseline annual amount required to keep the statewide system of roads and bridges in the condition it is today is \$485 million.

In 2020 MoDOT will not have enough state revenue to be able to match all available federal funds. That means those unmatched dollars will be directed to other states and lost to Missouri forever.

The uncertainty about future federal funding, declining fuel tax proceeds and increasing cost of doing business spurred the Missouri Highways and Transportation Commission (MHTC) to stop adding new projects to its five-year construction program. The Commission also suspended its popular Cost Share/Economic Development Program. Only a few exceptions were made for pressing safety or emergency projects, previously approved Cost Share projects and partner-funded projects that take care of the system rather than add to it.

Funding Transportation in Missouri and Across the Nation

Transportation departments across the country are finding that reliance on fuel taxes no longer works. Missouri's fuel tax hasn't changed in 20 years, vehicles are more fuel efficient, and people drive fewer miles. State revenue has been stagnant. Even worse, there is a great deal of uncertainty about federal funding for this five year STIP cycle, since the Federal Highway Trust Fund will become insolvent in the fall of 2014.

MoDOT's Bolder Five-Year Direction

MoDOT has taken big steps toward tightening its belt over the past two years. The Bolder Five-Year Direction has reduced staff, facilities and equipment saving \$500 million. However, MoDOT cannot cut its way to an improved transportation system.

A Stark Reality for Transportation

Transportation drives our economy. It provides for the safe and efficient movement of people and goods. It gives us freedom and flexibility, and it puts food on the table and gets us to work, school and elsewhere. For every dollar spent on transportation in Missouri, four dollars are generated for the economy. In addition, transportation access is a primary factor influencing businesses when deciding to relocate or expand. The list of benefits goes on and on. Simply put, it enables life to be productive and worthwhile, but it's something most people take for granted.

Hard choices will need to be made, but a long-term solution must be found to fund transportation. It's time to take action. Missourians have to find a way to invest more in transportation. Recent discussion and support for transportation funding solutions in the General Assembly are encouraging, but the Missouri voters inevitably will decide the course of transportation at the ballot box.

In the meantime, MoDOT will continue to use the resources it's given in the best ways possible. MoDOT will keep talking about the importance of transportation and will support any and all efforts to solve the state's transportation funding problems.

Introduction

The Missouri Department of Transportation (MoDOT), in accordance with state and federal law, has prepared this Statewide Transportation Improvement Program (STIP), for state fiscal years 2015 through 2019 (July 1, 2014, through June 30, 2019). The STIP is prepared annually and includes projects proposed for funding under the Moving Ahead for Progress in the 21st Century Act of 2012 (MAP-21), FAA Modernization and Reform Act of 2012, Passenger Rail Investment and Improvement Act of 2008 (PRIIA) and state revenue. MAP-21 was signed into law on July 6, 2012. It funds highways, highway safety and transit improvements for the two-year period from 2013 through 2014. This document meets all state and federal requirements and is fiscally constrained.

The STIP establishes work for a rolling five-year period of time. As each year is completed, the STIP is updated and a new year is added.

Public Involvement

Public involvement in project development and programming activities is a key element in gaining public acceptance critical to the success of any transportation improvement program. The recent multi-year federal transportation bills have emphasized the necessity of public involvement. In Missouri, the approach is primarily to seek involvement from four groups: metropolitan planning organizations, regional planning commissions, local officials and the general public. Through public involvement, Missourians have a say in how transportation dollars are spent.

Metropolitan planning organizations represent urbanized areas with populations over 50,000. They are responsible for transportation planning within their regions. Regional planning commissions represent multi-county rural regions and are charged with coordinating functions of local governments, including transportation planning. The public is involved in the planning process in two ways: 1) through election of the local officials who comprise the regional planning commission and metropolitan planning organization boards of directors; and 2) through direct contact with MoDOT, metropolitan planning organizations, regional planning commissions or local officials. (See Section 1 for contact information regarding metropolitan planning organizations, regional planning commissions and MoDOT district offices.)

Public involvement for development of transportation improvements begins several years before the projects actually appear in the STIP.

Transportation planning consists of a series of decisions that direct the use of current and future available resources to accomplish Missouri's transportation goals. The current transportation planning process can be summarized in the following steps.

1. Develop Missouri's long range transportation plan
2. Identify and prioritize needs
3. Develop solutions and design projects
4. Prioritize and select projects for the STIP's Highway and Construction Schedule

Develop Missouri's Long Range Transportation Plan

MoDOT's long-range transportation plan identifies the state's transportation vision for the next 20 years. The plan also identifies what the public expects of the state transportation system.

MoDOT's current long range transportation plan was completed in February 2014. The federally required plan, called "A Vision for Missouri's Transportation Future," is designed to guide transportation decision making throughout the state. It was developed after an intense seven-month public engagement period that resulted in over 12,000 suggestions ranging from big picture ideas to localized projects.

Based on the input received, four goal areas were established: 1) take care of the transportation system and services we enjoy today; 2) keep all travelers safe, no matter the mode of transportation; 3) invest in projects that spur economic growth and create jobs; and 4) give Missourians better transportation choices (more viable urban and rural transit, friendlier bike and pedestrian accommodations, improvements in rail, ports and airport operations).

The vision is Missouri's ideal transportation system, but without additional resources, MoDOT will not be able to deliver this vision.

The plan, including what Missourians said should be priorities over the next 20 years, can be found at www.missourionthemove.org.

Identify and Prioritize Needs

There are many transportation problems, often called needs, on Missouri's transportation system. Identifying these needs is a continuous process and crucial for successful planning. For example, one need might be redesigning a high-accident location, such as an intersection; another need might be a location improvement that helps a new business move products more efficiently. There are two levels of needs identification, regional and statewide, and they are classified in two groups – physical system condition needs and functional needs. Physical system condition needs target the state of repair of road and bridge components. Functional needs target how well the transportation system is operating.

Statewide needs are identified formally through the long-range transportation plan process, and public outreach is done in conjunction with the long-range transportation plan development. These needs typically cross several county lines, and involve interstates and major highways.

MoDOT districts work with planning partners – such as local and regional elected and community officials, and representatives of the metropolitan planning organizations and regional planning commissions – to identify regional transportation needs. Specific methods and timeframes are discussed in the implementation section of MoDOT's planning framework for guiding transportation decisions and investments.

Prioritizing needs is the process of deciding which problems, from the list of identified needs, should be addressed first. This can be a difficult task given a wide variety of needs. Not only do needs have different subject matter – safety, maintenance or economic development – they have varying time horizons. A structurally deficient bridge might be a more immediate need than a resurfacing project. However, simply being an immediate need does not imply higher priority. These complicated decisions require a coordinated effort from many groups.

Needs prioritization is based on the goals in Missouri's long-range transportation plan. MoDOT districts work with planning partners to prioritize regional needs annually. Statewide needs are prioritized periodically as funds become available; however, emerging needs can be added to the needs priority list between updates. Both regional and statewide needs will be prioritized using the processes established in MoDOT's planning framework, which are based primarily on objective data. Information regarding the planning framework can be found at www.modot.org/plansandprojects/index.htm. Using the results of the prioritization process as a starting point, MoDOT districts work with planning partners to divide needs into three categories.

- High – Resources are focused on addressing these needs first. They are the first to be selected for preliminary engineering.
- Medium – These needs may be addressed as additional resources become available.
- Low – No work is in progress to address these needs at this time.

The high-priority needs list is fiscally constrained to about 10 years of funding and is not a commitment to design or construct projects. Existing needs will be re-evaluated each time needs are prioritized. Some high-priority needs may never be designed or constructed due to prohibitive costs, changing priorities or other reasons. Needs from the high-priority list will be selected for preliminary project design.

Develop Solutions and Design Projects

When the high-priority needs have been identified, they are evaluated to find the best solution to the problem based on engineering expertise, public input and financial considerations. Environmental impact is another factor that influences the development and selection of a solution. There are a variety of environmental reviews that must occur for the proposed solutions. Some solutions may be less desirable or eliminated from consideration due to the extent of the environmental impacts. After a solution is agreed upon, design plans are started.

Determining the cause of a problem is often more complicated than might be expected. For instance, a high incidence of accidents at a given intersection might be due to poor sight distances, weather conditions, signal timing, roadway geometry or even reckless driving. Identifying the primary reason or combination of reasons for the problem is key to developing effective solutions.

When a problem is identified, the natural tendency for any problem-solver is to immediately offer the solution. Effective planning requires developing many possible solutions in order to capture the most efficient and effective solution. MoDOT engineers and planners are experts at generating good solutions to transportation problems. MoDOT staff is even more effective when working with local and regional officials to generate the solutions. This process reveals issues and concerns that may not have previously been evident.

The public's involvement in defining needs and determining the appropriate solutions will take several forms. The public may actually initiate the investigation of needs by contacting MoDOT or its planning partners. The public, through its local officials, has representation in determining the best solution for the transportation need. As MoDOT develops public involvement plans for specific projects, the public will have further opportunity to review concepts and provide input.

Prioritize and Select Projects for Construction

Deciding which projects to do and when to do them is a complicated and often controversial matter. Gathering and discerning public input is crucial to realizing the full benefit of available funds for Missouri's transportation system. MoDOT relies on local and regional planning agencies for this process.

The project prioritization processes are based primarily on data and serve as a starting place for determining the best candidates for funding. There are separate project prioritization processes for each category in MoDOT's funding distribution method.

MoDOT recognizes the need for a balance between taking care of the current transportation system and expanding the system to accommodate anticipated future demand. As a result, transportation funding is divided accordingly. The nature of this balance is adjusted through the level of funds in each category. The project prioritization processes include the following.

- Safety
- Taking care of the system
- Major projects and emerging needs (regional)
- Major projects and emerging needs (statewide)
- Interstates and major bridges

Projects are divided into three categories - high, medium and low - within each funding category. Each time projects are prioritized, existing projects not yet programmed for construction are re-evaluated.

Projects are prioritized against other projects in the same funding category. Larger projects of statewide significance are compared with one another. Smaller projects and those intended to take care of the existing system are compared with one another. MoDOT works with local and regional officials to determine the priority of the projects in each funding category. Projects on the high-priority project list are candidates for funding. The projects selected for funding are shown in Section 4.

Additionally, each of Missouri's nine metropolitan planning organizations (MPO) located in Cape Girardeau (Southeast Metropolitan Planning Organization - SEMPO), Columbia (Columbia Area Transportation Study Organization - CATSO), Fayetteville-Springdale-Rogers AR (and a small part of McDonald County,-MO) (Northwest Arkansas Regional Planning Commission), Jefferson City (Capital Area Metropolitan Planning Organization - CAMPO), Joplin (Joplin Area Transportation Study Organization - JATSO), Kansas City (Mid-America Regional Council - MARC), St. Joseph (St. Joseph Area Transportation Study Organization - SJATSO), St. Louis (East-West Gateway Council of Governments - EWGCOG) and Springfield (Ozarks Transportation Organization - OTO) prepares a Transportation Improvement Program (TIP) and a long-range transportation plan (LRTP) for its MPO area. These TIPs are the accumulation of federally funded projects proposed by their local governments and MoDOT. These projects are consistent with the LRTP's goals and objectives. MoDOT uses public input received throughout the year to develop its submittal for the MPO's TIP. Each MPO has an approved public involvement plan for its respective area that allows for review and

feedback from individual citizens, organizations, agencies and local area governments. Using public input as one of its decision factors, the MPO determines the projects in its area that will be programmed for construction. Northwest Arkansas Regional Planning Commission, representing the Fayetteville-Springdale-Rogers AR-MO metropolitan area, is Missouri's newest MPO. It is an expansion of Arkansas's MPO into a small part of McDonald County, Missouri, taking effect in June 2014.

These TIPs are incorporated by reference into the five-year STIP without modification. (See Section 9.)

Public Review Period

Comments from the public and the planning partners are considered throughout the year in an effort to maximize Missouri's resources. Based on public and engineering input, a draft of the STIP is published, followed by a 30-day public review period. During this public review period, the program is distributed to MoDOT districts for public access, and the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) for review. The STIP is also available on MoDOT's Web site at www.modot.org/plansandprojects/index.htm. Citizens have the opportunity to provide comments by mail, e-mail or telephone (by calling 1-888-ASK-MODOT) to district representatives during this time period. MoDOT responds to the comments received through an acknowledgement or by providing additional information, depending on the nature of the comment. Most answers or acknowledgements are sent within five business days of receiving the comment. Some comments require more time for research before an answer can be provided. Changes are made as appropriate in response to comments before a final STIP is developed and presented to the Missouri Highways and Transportation Commission (MHTC) for approval. Input from this part of the process will be used to measure the effectiveness of the program and to begin making improvements on next year's program. The STIP becomes effective when approved by the MHTC as well as the FHWA and FTA.

Program Amendments

Projects can be amended to the STIP and to a TIP. The public involvement process for STIP amendments occurs prior to incorporating the project in the program. Public involvement for projects inside a MPO area will be coordinated by the MPO according to its approved TIP amendment process.

A seven-day public comment period is provided for all proposed amendments and administrative amendments to the STIP. Administrative modifications do not require a seven-day public comment period. All projects, regardless of proposal time, follow the public involvement processes and policies defined in MoDOT's planning framework.

Reference Information

Administrative Amendment – Administrative amendments are project revisions involving the addition of federally-funded scoping projects, state-funded regionally significant scoping projects, hardship right of way purchases, emergency projects, major scope changes without budget changes, the splitting of general location projects into specific locations or the addition of right of way to construction projects already in the Statewide Transportation Improvement Program (STIP) with no net budget change (uninflated). Administrative amendments require Missouri Highways and Transportation Commission and Federal Highway Administration / Federal Transit Administration approval. The Missouri Highways and Transportation Commission has delegated authority to approve administrative amendments to the Chief Engineer. Administrative amendments occur between annual STIP updates.

Administrative Modification – Administrative modifications are project revisions involving the addition of state-funded non-regionally significant scoping projects, fiscally constrained changes to existing projects such as splitting or incorporating projects or changing fiscal years, minor scope changes without budget changes, adding funding sources to projects, advance construction changes and technical corrections. Administrative modifications require Missouri Highways and Transportation Commission approval but not Federal Highway Administration / Federal Transit Administration approval. The Missouri Highways and Transportation Commission has delegated authority to approve administrative modifications to the Chief Engineer. Administrative modifications occur between the annual updates of the STIP.

Advance Construction – This is a mechanism that allows a project to be funded with state funds now and preserves a project's eligibility for federal reimbursement in the future.

Amendment – Amendments are project revisions involving the addition of new projects, deletion of existing projects, or a budget change to an existing project. Amendments require Missouri Highways and Transportation Commission and Federal Highway Administration / Federal Transit Administration approval. Amendments occur between the annual STIP updates.

Amendment 3 – This is a bonding referendum passed by voters in November 2004 that provides additional funds for transportation projects. The funding made available resulted in three initiatives: the Smooth Roads Initiative, the Acceleration of Projects and New Major Projects (original and additional).

American Recovery and Reinvestment Act (ARRA) – On February 17, 2009, President Barack Obama signed this federal act to help spur the national economy. ARRA included funding for shovel-ready transportation projects.

At-Grade Intersection – This is an intersection of two or more roadways that provides for vehicular and pedestrian traffic movement on the same level of the riding surface.

Culvert – This is a drainage structure constructed beneath the roadway. Box sections, pipes and arches are examples of various culvert shapes.

Deck – This is the portion of a bridge that provides the riding surface for vehicular and pedestrian traffic. The deck distributes loads to the superstructure elements.

Engineering – This is the work required to develop a project's scope and detailed design, as well as the inspection of a construction project.

Expressway – This is a multilane, divided highway where access is allowed at public roads via at-grade intersections.

Federal-Aid Highways – Those roads which are eligible for federal funding under Title 23 of the United States Code, except roads classified as local or rural minor collector. Other exceptions apply to this general rule.

Fiscal Constraint – This is the demonstration that sufficient funds are reasonably expected to be available to cover the anticipated project costs within the five-year window of the STIP.

Fiscal Year – This is a 12-month period to which the annual STIP budget applies, and at the end of which a government determines its financial position and the results of its operations. The State of Missouri fiscal year is July 1 through June 30. The STIP fiscal year is July 1 through June 30. The federal fiscal year is October 1 through September 30.

FFOS – Funding From Other Sources – These are funds applied to a project that are from sources other than the funding distribution categories available for district use.

FHWA – Federal Highway Administration – This is the federal agency that provides financial and technical support for the construction, improvement and preservation of the highway system.

Freeway – This is a multilane, divided highway where access is provided only at grade-separated interchanges.

Geometric Improvement – This is a roadway improvement other than a surface treatment, such as adding turn lanes or widening an intersection.

Intersection – This is where two or more roadways meet. An at-grade intersection has two or more roadways that provide for traffic movement on the same level.

Interchange – This is where two or more roadways meet. An interchange has two or more roadways that provide for the movement of traffic on different levels (grade separated).

Lane – This is the travel path of one vehicle on a roadway and usually delineated by a dashed or solid stripe.

Let – This means to advertise projects and take bids from contractors to perform the work.

Long-Range Transportation Plan (LRTP) – This is a multimodal transportation plan covering a period of at least 20 years developed through the statewide transportation planning process.

MAP-21 – On July 6, 2012, President Obama signed into law the Moving Ahead for Progress in the 21st Century Act of 2012. This is the current transportation act, which authorizes the federal surface transportation programs for highways, highway safety, and transit for the two-year period from 2013 through 2014.

MPO – Metropolitan Planning Organization – This is the entity responsible for transportation planning in urbanized areas with populations greater than 50,000. The nine MPO's in Missouri serve the Cape Girardeau, Columbia, Fayetteville-Springdale-Rogers AR (and a small part of McDonald County, MO), Jefferson City, Joplin, Kansas City, St. Joseph, St. Louis and Springfield metropolitan areas. Also see TMA.

Major Highway System – This system includes all of Missouri's most traveled roads. It consists of approximately 5,500 miles that carry nearly 80 percent of the state's traffic. Approximately 95 percent of Missouri residents live within 10 miles of these roads.

Major Bridge – A major bridge is any bridge with a total length of at least 1,000 feet.

Minor Highway System – This system includes any road that is not on the Major Highway System. This system consists of approximately 28,000 miles, which carry nearly 20 percent of the state's traffic. These roads are often referred to as farm-to-market roads in the state's rural areas.

National Highway System – This is a system of major highway networks established by the federal government that includes interstate routes, most urban and rural principal arterials, the defense strategic highway network and strategic highway connectors.

NHPP – National Highway Performance Program – This is one of several categories of federal transportation funds and can be used for road, bridge, or other improvements. This category was created in MAP-21 and incorporates the former federal categories of National Highway System, Bridge and Interstate Maintenance.

Passenger Rail Investment and Improvement Act (PRIIA) – On October 16, 2008, President George W. Bush signed the Passenger Rail Investment and Improvement Act. PRIIA reauthorizes the National Railroad Passenger Corporation, better known as Amtrak, and strengthens the US passenger rail network by tasking Amtrak, the U.S. Department of Transportation (US DOT), Federal Railroad Administration (FRA), States, and other stakeholders in improving service, operations, and facilities for fiscal years 2009 through 2013.

Planning Framework – Since 2004, this is MoDOT's process of involving the general public and planning partners, which represent regions of the state, and local areas, in the identification and prioritization of transportation needs and projects.

Programmed – This means a project has right of way and/or construction funds committed for expenditure within the five state fiscal years of the Statewide Transportation Improvement Program.

Reconstruction – This is a type of improvement designed to replace the existing roadway or bridge when it has reached the end of its useful life. Reconstruction is often accompanied by improvements to the highway's functional and operational capacity.

Regionally Significant Project - This is a transportation project on a facility that serves regional transportation needs (such as access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes, or employment centers; or transportation terminals) and would normally be included in the modeling of the metropolitan area's transportation network. At a minimum, this includes all principal arterial highways and all fixed guide way transit facilities that offer a significant alternative to regional highway travel.

Rehabilitation – This is a type of improvement designed to preserve and extend the service life and enhance the safety of an existing roadway or bridge when total replacement is not warranted.

Right of Way – This is land or property used specifically for transportation purposes.

Safe & Sound Bridge Improvement Program – This is an initiative to improve 802 bridges throughout the state by December 31, 2013. A team of contractors and designers was selected to replace more than 550 bridges as part of a single design-build package. The remaining bridges will be rehabilitated using a modified design-bid-build approach.

SAFETEA-LU – On August 10, 2005, President George W. Bush signed the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). SAFETEA-LU authorizes the federal surface transportation programs for highways, highway safety, and transit for the five-year period from 2005 through 2009.

STIP – Statewide Transportation Improvement Program – This is a fiscally constrained five-year listing of transportation projects in Missouri.

STP – Surface Transportation Program – This is one of several categories of federal transportation funds and can be used for road, bridge or other improvements.

Substructure – This is the abutments, piers or other bridge elements built to support bridge superstructure. The substructure transfers loads from the superstructure to the ground.

Superstructure – This is the portion of a bridge that supports the bridge deck and traffic loads. The superstructure transfers these loads to the bridge substructure. Examples of superstructure types include trusses, concrete I-beams and steel I-beams.

TEA-21 – The U.S. Congress passed the Transportation Equity Act for the 21st Century (TEA-21) on June 9, 1998. It provided authorizations for highways, highway safety, and mass transit for six years. TEA-21 expired September 30, 2003.

TIP – Transportation Improvement Program – This is a fiscally constrained four-year listing of transportation projects within metropolitan planning organizations.

TMA – Transportation Management Area – This is the entity responsible for transportation planning in urbanized areas with populations greater than 200,000. Missouri's four TMAs serve the Kansas City, St. Louis, Springfield and Fayetteville-Springdale-Rogers, Arkansas metropolitan areas, which now includes a small part of McDonald County in southwest Missouri.

Work Zone – This is a designated area where highway construction or maintenance is taking place.

Section 3 – Scoping and Design Projects

2015 – 2019 Scoping and Design Projects

The purpose of this section is to identify potential future highway and bridge projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.** These commitments won't be made until the NEPA process is completed. These projects are being included in the STIP for informational purposes and subsequent phases have not yet been determined or are beyond the STIP horizon period.

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

Section 4 – Highway and Bridge Schedule

2015 – 2019 Highway and Bridge Construction Schedule RSMo 21.795.3.(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right of way acquisition and/or construction during the five-year period between July 1, 2014, and June 30, 2019. Engineering costs for these projects are included as well.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right of way and or construct. Projects on this schedule with right of way funding only represent a commitment to buy right of way, not a commitment to construct.

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right of way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the Metropolitan Planning Organizations for projects in the Cape Girardeau, Columbia, Fayetteville-Springdale-Rogers AR-MO, Jefferson City, Joplin, Kansas City, St. Joseph, St. Louis, and Springfield areas.

MoDOT's Northwest District

PROJECT DESCRIPTION KEY

2015-2019 Highway and Bridge Construction Schedule

Construction contingency applied to construction cost in the year the project is awarded.

Three percent project growth factor compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS) or Payments.

Engineering includes PE costs, CE costs, and R/W incidentals.

Award Date _____ Anticipated Fed Cat: _____
 Future Cost: _____ Estimate Total: _____

Anticipated Federal Funding Category**

Estimated cost range beyond 2019.

Date project is to be awarded to begin construction (Season and calendar year for 2014 & 2015. SFY only beyond 2015).

Metropolitan Planning Organization (Y/N).

Project description and location.

County location of project.

Route location of project.

Project number used to track project

Total Length in 1/100 miles.

Primary Funding Category.*

Secondary Funding Category.

Transportation Improvement Plan

Projects with full oversight by the Federal Highway Administration.

Total project cost estimate.

Federal, Advanced CN-State, State and Local share of project costs.

Dollars programmed in previous STIPs.

Dollars funded from other sources.

Dollars for construction, utilities and contingency.

Dollars for right-of-way (land acquisition).

Dollars to be paid back for accelerating the project or payments to others.

Dollars for engineering that include preliminary engineering, construction engineering and right-of-way incidentals.

*Primary funding category:

Take Care of System
 Statewide Interstate & Major Bridge
 Safety
 Major Projects & Emerging Needs
 Amendment 3

**Federal funding category:

CMAQ - Congestion Mitigation and Air Quality
 * usually 80% Federal & 20% State funds
Earmark - usually 80% Federal & 20% State funds
NHPP - National Highway Performance Program
 * usually 80% Federal & 20% State funds
 * sometimes 90% Federal & 10% State funds
Safety - usually 90% Federal & 10% State funds
State - No federal funds, state only funded
STP - Surface Transportation Program
 * usually 80% Federal & 20% State funds

(All Costs in Thousands)

Anticipated Federal Funding Category**

Estimated cost range beyond 2019.

Date project is to be awarded to begin construction (Season and calendar year for 2014 & 2015. SFY only beyond 2015).

Metropolitan Planning Organization (Y/N).

Project description and location.

County location of project.

Route location of project.

Project number used to track project

Total Length in 1/100 miles.

Primary Funding Category.*

Secondary Funding Category.

Transportation Improvement Plan

Projects with full oversight by the Federal Highway Administration.

Total project cost estimate.

Federal, Advanced CN-State, State and Local share of project costs.

Dollars programmed in previous STIPs.

Dollars funded from other sources.

Dollars for construction, utilities and contingency.

Dollars for right-of-way (land acquisition).

Dollars to be paid back for accelerating the project or payments to others.

Dollars for engineering that include preliminary engineering, construction engineering and right-of-way incidentals.

*Primary funding category:

Take Care of System
 Statewide Interstate & Major Bridge
 Safety
 Major Projects & Emerging Needs
 Amendment 3

**Federal funding category:

CMAQ - Congestion Mitigation and Air Quality
 * usually 80% Federal & 20% State funds
Earmark - usually 80% Federal & 20% State funds
NHPP - National Highway Performance Program
 * usually 80% Federal & 20% State funds
 * sometimes 90% Federal & 10% State funds
Safety - usually 90% Federal & 10% State funds
State - No federal funds, state only funded
STP - Surface Transportation Program
 * usually 80% Federal & 20% State funds

Statewide Transportation Improvement Program 2015-2019

Kansas City District

Highway and Bridge Construction Projects

TMA

MoDOT's Kansas City District

Mid-America Regional Council

(Note: The following MoDOT projects are located inside the Kansas City Metropolitan Planning area boundary.)

PROJECT DESCRIPTION KEY

2015-2019 Highway and Bridge Construction Schedule

Construction contingency applied to construction cost in the year the project is awarded.

Three percent project growth factor compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS) or Payments.

Engineering includes PE costs, CE costs, and R/W incidentals.

Award Date _____ Anticipated Fed Cat: _____
 Future Cost: _____ Estimate Total: _____

Anticipated Federal Funding Category**

Estimated cost range beyond 2019.

Date project is to be awarded to begin construction (Season and calendar year for 2014 & 2015. SFY only beyond 2015).

Metropolitan Planning Organization (Y/N).

Project description and location.

County location of project.

Route location of project.

Project number used to track project

Total Length in 1/100 miles.

Primary Funding Category.*

Secondary Funding Category.

Transportation Improvement Plan

Projects with full oversight by the Federal Highway Administration.

Total project cost estimate.

Federal, Advanced CN-State, State and Local share of project costs.

Dollars programmed in previous STIPs.

Dollars funded from other sources.

Dollars for construction, utilities and contingency.

Dollars for right-of-way (land acquisition).

Dollars to be paid back for accelerating the project or payments to others.

Dollars for engineering that include preliminary engineering, construction engineering and right-of-way incidentals.

*Primary funding category:

Take Care of System
 Statewide Interstate & Major Bridge
 Safety
 Major Projects & Emerging Needs
 Amendment 3

**Federal funding category:

CMAQ - Congestion Mitigation and Air Quality
 * usually 80% Federal & 20% State funds
Earmark - usually 80% Federal & 20% State funds
NHPP - National Highway Performance Program
 * usually 80% Federal & 20% State funds
 * sometimes 90% Federal & 10% State funds
Safety - usually 90% Federal & 10% State funds
State - No federal funds, state only funded
STP - Surface Transportation Program
 * usually 80% Federal & 20% State funds

(All Costs in Thousands)

2015-2019 Highway and Bridge Construction Schedule

Construction contingency applied to construction cost in the year the project is awarded.

Three percent project growth factor compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS) or Payments.

Engineering includes PE costs, CE costs, and R/W incidentals.

 Future Cost: _____ Estimate Total: _____

Anticipated Federal Funding Category**

Estimated cost range beyond 2019.

Date project is to be awarded to begin construction (Season and calendar year for 2014 & 2015. SFY only beyond 2015).

Metropolitan Planning Organization (Y/N).

Project description and location.

County location of project.

Route location of project.

Project number used to track project

Total Length in 1/100 miles.

Primary Funding Category.*

Secondary Funding Category.

Transportation Improvement Plan

Projects with full oversight by the Federal Highway Administration.

Total project cost estimate.

Federal, Advanced CN-State, State and Local share of project costs.

Dollars programmed in previous STIPs.

Dollars funded from other sources.

Dollars for construction, utilities and contingency.

Dollars for right-of-way (land acquisition).

Dollars to be paid back for accelerating the project or payments to others.

Dollars for engineering that include preliminary engineering, construction engineering and right-of-way incidentals.

*Primary funding category:

Take Care of System
 Statewide Interstate & Major Bridge
 Safety
 Major Projects & Emerging Needs
 Amendment 3

**Federal funding category:

CMAQ - Congestion Mitigation and Air Quality
 * usually 80% Federal & 20% State funds
Earmark - usually 80% Federal & 20% State funds
NHPP - National Highway Performance Program
 * usually 80% Federal & 20% State funds
 * sometimes 90% Federal & 10% State funds
Safety - usually 90% Federal & 10% State funds
State - No federal funds, state only funded
STP - Surface Transportation Program
 * usually 80% Federal & 20% State funds

Award Date _____ Anticipated Fed Cat: _____
 Future Cost: _____ Estimate Total: _____

Anticipated Federal Funding Category**

Estimated cost range beyond 2019.

Date project is to be awarded to begin construction (Season and calendar year for 2014 & 2015. SFY only beyond 2015).

Metropolitan Planning Organization (Y/N).

Project description and location.

County location of project.

Route location of project.

Project number used to track project

Total Length in 1/100 miles.

Primary Funding Category.*

Secondary Funding Category.

Transportation Improvement Plan

Projects with full oversight by the Federal Highway Administration.

Total project cost estimate.

Federal, Advanced CN-State, State and Local share of project costs.

Dollars programmed in previous STIPs.

Dollars funded from other sources.

Dollars for construction, utilities and contingency.

Dollars for right-of-way (land acquisition).

Dollars to be paid back for accelerating the project or payments to others.

Dollars for engineering that include preliminary engineering, construction engineering and right-of-way incidentals.

*Primary funding category:

Take Care of System
 Statewide Interstate & Major Bridge
 Safety
 Major Projects & Emerging Needs
 Amendment 3

**Federal funding category:

CMAQ - Congestion Mitigation and Air Quality
 * usually 80% Federal & 20% State funds
Earmark - usually 80% Federal & 20% State funds
NHPP - National Highway Performance Program
 * usually 80% Federal & 20% State funds
 * sometimes 90% Federal & 10% State funds
Safety - usually 90% Federal & 10% State funds
State - No federal funds, state only funded
STP - Surface Transportation Program
 * usually 80% Federal & 20% State funds

(All Costs in Thousands)

2015-2019 Highway and Bridge Construction Schedule

MoDOT's Southwest District

(Note: The following MoDOT projects are located outside the Springfield Metropolitan Planning area boundary.)

PROJECT DESCRIPTION KEY

2015-2019 Highway and Bridge Construction Schedule

Construction contingency applied to construction cost in the year the project is awarded.

Three percent project growth factor compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS) or Payments.

Engineering includes PE costs, CE costs, and R/W incidentals.

 Federal Oversight

Award Date _____ Anticipated Fed Cat: _____
 Future Cost: _____ Estimate Total: _____

Anticipated Federal Funding Category**

Estimated cost range beyond 2019.

Date project is to be awarded to begin construction (Season and calendar year for 2014 & 2015. SFY only beyond 2015).

Metropolitan Planning Organization (Y/N).

Project description and location.

County location of project.

Route location of project.

Project number used to track project

Total Length in 1/100 miles.

Primary Funding Category.*

Secondary Funding Category.

Transportation Improvement Plan

Projects with full oversight by the Federal Highway Administration.

Total project cost estimate.

Federal, Advanced CN-State, State and Local share of project costs.

Dollars programmed in previous STIPs.

Dollars funded from other sources.

Dollars for construction, utilities and contingency.

Dollars for right-of-way (land acquisition).

Dollars to be paid back for accelerating the project or payments to others.

Dollars for engineering that include preliminary engineering, construction engineering and right-of-way incidentals.

*Primary funding category:

Take Care of System
 Statewide Interstate & Major Bridge
 Safety
 Major Projects & Emerging Needs
 Amendment 3

**Federal funding category:

CMAQ - Congestion Mitigation and Air Quality
 * usually 80% Federal & 20% State funds
Earmark - usually 80% Federal & 20% State funds
NHPP - National Highway Performance Program
 * usually 80% Federal & 20% State funds
 * sometimes 90% Federal & 10% State funds
Safety - usually 90% Federal & 10% State funds
State - No federal funds, state only funded
STP - Surface Transportation Program
 * usually 80% Federal & 20% State funds

Estimated cost range beyond 2019.

Date project is to be awarded to begin construction (Season and calendar year for 2014 & 2015. SFY only beyond 2015).

Metropolitan Planning Organization (Y/N).

Project description and location.

County location of project.

Route location of project.

Project number used to track project

Total Length in 1/100 miles.

Primary Funding Category.*

Secondary Funding Category.

Transportation Improvement Plan

Projects with full oversight by the Federal Highway Administration.

Total project cost estimate.

Federal, Advanced CN-State, State and Local share of project costs.

Dollars programmed in previous STIPs.

Dollars funded from other sources.

Dollars for construction, utilities and contingency.

Dollars for right-of-way (land acquisition).

Dollars to be paid back for accelerating the project or payments to others.

Dollars for engineering that include preliminary engineering, construction engineering and right-of-way incidentals.

*Primary funding category:

Take Care of System
 Statewide Interstate & Major Bridge
 Safety
 Major Projects & Emerging Needs
 Amendment 3

**Federal funding category:

CMAQ - Congestion Mitigation and Air Quality
 * usually 80% Federal & 20% State funds
Earmark - usually 80% Federal & 20% State funds
NHPP - National Highway Performance Program
 * usually 80% Federal & 20% State funds
 * sometimes 90% Federal & 10% State funds
Safety - usually 90% Federal & 10% State funds
State - No federal funds, state only funded
STP - Surface Transportation Program
 * usually 80% Federal & 20% State funds

(Note: The following MoDOT projects are located inside the Springfield Metropolitan Planning area boundary.)

2015-2019 Highway and Bridge Construction Schedule

Transportation Planning

P.O. Box 270
Jefferson City, MO 65102

Construction contingency applied to construction cost in the year the project is awarded.

Three percent project growth factor compounded annually is applied to right-of-way and construction costs in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS) or Payments.

Engineering includes PE costs, CE costs and R/W incidentals.

Section 5 – Estimated Financial Summary

Estimated Financial Summary for the 2015-2019 Highway and Bridge Construction Schedule

Overview

Section 5 of the Statewide Transportation Improvement Program explains the sources and projected levels of Missouri's transportation revenues, while also sharing the planned expenditures for the next five years.

The department is proud to be able to cost-effectively maintain a safe and efficient transportation system. Great strides have been made in the past decade to improve the condition of Missouri's roads and bridges while driving down roadway fatalities to their lowest total since the 1940s. However, those improvements were made possible by temporary revenue sources – a bonding program made possible by the passage of Amendment 3 in 2004 and the American Recovery and Reinvestment Act in 2009. And while those funds supported a booming construction program between 2005-2010, since that time MoDOT's construction budget has been on a downward slide that is going to get worse during this STIP cycle.

No matter how carefully finances are managed, there is a problem with how transportation is funded in this state and country. The fuel tax model used for many, many years no longer works. Cars are getting more fuel efficient and people are driving fewer miles. In fact, from 2005-2013, the number of gallons purchased in Missouri has declined six percent and is projected to continue to decline in the next five years. It's very unlikely that fuel tax will ever be a growing revenue stream again.

About 70 percent of every dollar MoDOT receives comes from fuel taxes. But the fuel tax rate at the state level hasn't been changed since 1992, and at the federal level it hasn't changed since 1993. With the cost of concrete tripled, steel prices doubled, and asphalt costing more than twice what it did two decades ago, this means Missouri is trying to fund its current transportation needs with a budget that is almost two decades out of date. What was 17 cents of purchasing power in 1992 is now about 8 cents and decreasing each year.

Other sources of state revenue for transportation include sales and use tax, vehicle and driver licensing fees, interest earned on invested funds and other miscellaneous collections, and a small portion of general revenue funds. Revenue collected through these avenues has remained relatively flat in recent years, and the general trend for the future indicates these sources will remain stagnant.

In the summer of 2012, Congress passed a new federal transportation act titled "Moving Ahead for Progress in the 21st Century Act," or MAP-21. The act reauthorizes federal highway, transit and other surface transportation programs through September 30, 2014. The funding levels require transfers of \$2.4 billion from the Leaking Underground Storage Tank Trust Fund and \$18.8 billion from the General Fund to the Highway Trust Fund.

MAP-21 reduced the amount of funding for all state transportation departments, and Missouri received \$71 million less per year for fiscal years 2012, 2013 and 2014 compared to fiscal year 2011. The federal assumptions for fiscal years 2015 and beyond are based on the reduced funding levels received during MAP-21 and the uncertainty of the Highway Trust Fund balance.

MoDOT continues to be one of the most efficient state agencies in difficult economic times. The department's operating expenses remain flat, outside of minimal increases related to healthcare and retirement costs. In the past ten years, MoDOT has completed 4,553 projects worth \$12.1 billion, at 5 percent under budget. Since 2011, MoDOT has reduced its workforce by 20 percent, disposed of more than 750 pieces of equipment, and sold 131 buildings. Those right-sizing efforts have saved more than \$500 million and bolstered the construction program to enable critical roadway improvements. But the department cannot cut its way to an improved transportation system and a solution to its funding constraints.

Missouri's 2015-2019 STIP is primarily maintenance-focused with little room for anything else, but that hasn't always been the case. In 2004, Missouri voters approved Amendment 3, which redirected motor vehicle sales taxes to the newly created State Road Bond Fund and directed MoDOT to sell bonds and use the proceeds to improve roads and bridges. With that, Missouri's major roads went from 47 percent in good condition to 88 percent today. Minor, less traveled roads have been maintained at 70 percent in good condition. The condition of Missouri's bridges has steadily improved over the last five years, due to the Safe & Sound Bridge Improvement Program completed in 2012 and dedicated funding through the STIP. Access to bond proceeds has put Missouri's roads and bridges in a good place, and allowed for additional four-lane highways, new interchanges to bring businesses to Missouri, and major bridges like the new Stan Musial Veterans Memorial Bridge in St. Louis and the Christopher S. Bond Bridge in Kansas City. In 2009, the one-time injection of federal stimulus funds through the American Recovery and Reinvestment Act brought millions of dollars for road and bridge projects. But these opportunities are over. Federal stimulus funds are gone and the bond proceeds have been used to make the improvements Missourians wanted. Now the redirected vehicle sales taxes that made it possible are being used to pay off that debt, just like paying the mortgage on your home.

In previous years, the annual contractor awards in the STIP averaged \$1.2 billion, with about 50 percent used for taking care of the system. In this STIP, the contractor awards average \$461 million, and nearly 80 percent is aimed at taking care of the existing system. To keep Missouri's roads and bridges in the condition they are today requires \$485 million per year. During this STIP cycle, Missouri's construction awards are projected to fall far below that – to \$325 million. The opportunities to expand the system – widening a busy two-lane road to four lanes to reduce congestion and improve safety, or building a new roadway or interchange to help promote business development and bring jobs to the state – are disappearing.

Looking forward, the percentage of funds needed to simply maintain the existing system will continue to grow, with virtually nothing available to enhance or improve it. Projected funding levels will not keep pace with the money necessary to maintain our roads and bridges. In fact, MoDOT estimates the cost of maintaining roads and bridges to nearly double over the next 20 years. If no change occurs to funding levels, the transportation system will deteriorate.

These facts mean Missourians have some tough choices ahead of them. They rely on a modern and safe transportation system to get to work, school and everywhere in between. A healthy transportation infrastructure ensures businesses can operate and grow. It ensures the state can prosper and jobs can be created. Essentially, transportation is what keeps Missouri moving. Missourians must work together to recognize that investments in transportation are part of the solution for the state's growth and prosperity.

Revenue

Federal

The largest source of transportation revenue is from the **federal government** including the 18.4-cents per gallon tax on gasoline and 24.4-cents per gallon tax on diesel fuel. The last time either tax was increased was in 1993. Other sources include various taxes on tires, truck and trailer sales, and heavy vehicle use. These highway user fees are deposited in the federal Highway Trust Fund and distributed to the states based on formulas prescribed by federal law through transportation funding acts. This revenue source also includes multimodal and highway safety grants (see Section 7 for a summary of all multimodal operations). Approximately 33 percent of Missouri's transportation revenue comes from the federal government.

State

The next largest source of transportation revenue is from the **state fuel tax**. Fuel taxes represent the state share (approximately 27 percent is distributed to cities and counties) of revenue received from the state's 17-cent per gallon tax on gasoline and diesel fuels which must be spent on highways and bridges. The last time the gasoline and diesel tax was changed was in 1992. This revenue source also includes a 9-cent per gallon tax on aviation fuel which must be spent on airport projects (see Section 7). These tax revenues provide approximately 30 percent of transportation revenues. The state motor fuel tax is not indexed to keep pace with inflation, and no rate increase has occurred since 1996.

MoDOT receives a portion of the **state sales and use taxes** paid upon the purchase or lease of motor vehicles. This revenue source also includes the sales tax paid on aviation fuel which is dedicated to airport projects (see Section 7). These tax revenues provide approximately 17 percent of transportation revenues. In November 2004, voters passed constitutional Amendment 3, which set in motion a four-year phase in, redirecting motor vehicle sales taxes previously deposited in the state's general revenue fund to a newly created State Road Bond Fund. In state fiscal year 2009, the process of redirecting motor vehicle sales taxes to transportation was fully phased in, and the rate of growth in this revenue source slowed dramatically. Starting July 2013, state legislation eliminated the state motor vehicle use tax. The state motor vehicle use tax was replaced with the state motor vehicle sales tax which directs a greater portion of the tax to local government agencies. Future projected growth in this category is less than the rate of increase in construction and maintenance costs; therefore, not keeping pace with inflation.

Vehicle and driver licensing fees include the state share of revenue received from licensing motor vehicles and drivers. This revenue source also includes fees for railroad regulation which are dedicated to multimodal programs (see Section 7). These fees provide approximately 14 percent of transportation revenues. Similar to motor fuel tax, the motor vehicle and driver licensing fees are not indexed to keep pace with inflation, and no annual registration fee increases have occurred since 1984.

The **interest earned on invested funds and other miscellaneous collections** provides approximately 5 percent of transportation revenues. Cash balances in state transportation funds have been higher than historic levels. As referenced in Table 1 in Section 5-13, the cash balance of all state transportation funds is expected to decline from \$1.0 billion at the beginning of fiscal year 2015 to approximately \$116 million by the end of fiscal year 2019. Other miscellaneous collections include construction cost reimbursements from local governments and other states, proceeds from the sale of surplus property and fees associated with the Missouri logo-signing program.

The state **General Revenue Fund** provides approximately 1 percent of transportation revenue. The Missouri General Assembly appropriates it for multimodal programs (see Section 7).

Other

While not a true revenue, **bonding** is a method of financing used by the Missouri Highways and Transportation Commission (MHTC) to receive the best value for every dollar spent. Statutory authority was established in May 2000 for the MHTC to begin selling bonds, now called senior lien bonds. The **senior lien** bonds were limited to a total issuance of not more than \$2.25 billion. The lien was closed after \$907 million was issued from 2000 to 2003. The MHTC will issue no additional bonds under this lien.

In November 2004, Constitutional **Amendment 3**

was approved by Missouri voters. Amendment 3 redirects motor vehicle sales taxes to transportation. In accordance with this constitutional change, MoDOT began selling bonds and dedicated the funds to the *Smoother, Safer, Sooner* program. The Amendment 3 revenues are used for principal and interest payments on Amendment 3 debt. MoDOT sold \$2 billion of Amendment 3 bonds and has completed all Amendment 3 bond sales.

In fiscal year 2009, MoDOT sold \$142 million of bonds for a portion of the new Interstate 64, a design-build project in the St. Louis region. For the first time, MoDOT secured bonds primarily with federal funds, rather than state funds. These bonds are called **Grant Anticipation Revenue Vehicle (GARVEE)** bonds. In fiscal year 2010, MoDOT sold \$100 million additional GARVEE bonds for the new Mississippi River Bridge project and \$685 million for the Safe and Sound Bridge Improvement Program. The GARVEE principal and interest is scheduled to be repaid through state fiscal year 2033. MoDOT sold \$927 million of GARVEE bonds and has completed all planned GARVEE bond sales. See Figure 1 for a summary of the MHTC bond financing program.

Along with federal and state revenue, **existing cash balances** are used each year to remain fiscally constrained. The existing cash balances are made up of federal revenue and state revenue that have been deposited into MoDOT funds such as the State Road Fund, State Highways and Transportation Department Fund, and the State Road Bond Fund. These funds are considered available for funding highway and bridge construction projects.

Expenditures

Missouri's Constitution dictates a portion of state transportation revenues can be appropriated by the General Assembly to **other state agencies**. Appropriations are limited to (1) the Missouri State Highway Patrol (MSHP) to administer and enforce motor vehicle laws and (2) the Missouri Department of Revenue (DOR) to cover the cost of collection. DOR is entitled to the actual cost of collection not to exceed 3 percent of revenues collected. Approximately 92 percent of these expenditures are appropriated to the MSHP, and the remaining 8 percent is appropriated to the DOR. These costs are approximately 12 percent of transportation expenditures.

The state constitution also dictates that **debt service**, which is principal and interest payments on any outstanding state road bonds, must be paid prior to funding MoDOT operations and STIP costs. MoDOT issued \$3.8 billion of bonds from state fiscal years 2001 to 2010. The final payment for this debt is scheduled in state fiscal year 2033. These costs are approximately 14 percent of transportation expenditures. See Figure 1, Section 5-5 for a summary of the MHTC bond financing program.

Administration includes activities such as financial planning, accounting, human resources, community and governmental relations, multimodal and legal services. The dollars associated with administering self-insurance plans and contributions to retiree medical plans are included in this disbursement category. These costs are approximately 3 percent of transportation expenditures.

System Management includes maintenance, traffic, highway safety and motor carrier services. Maintenance and traffic costs, approximately 97 percent of system management costs, include funding for activities such as snow removal, signing, striping, litter control, mowing, maintaining roadsides and rest areas, completing routine road and bridge repairs, repairing guardrail and median guard cable, traffic signal operations and system management. The Highway Safety Division, approximately 1 percent of system management costs, implements programs addressing behavioral traffic safety issues. Emphasis areas include high-risk drivers, serious crash types and vulnerable roadway users. Safety strategies include enforcement (manpower, training and equipment), education (promotional materials, campaigns and educational/awareness programs) and engineering (data collection/evaluation and high accident location assessments). Division staff work with safety advocates statewide to implement the Highway Safety Plan, Motor

Carrier Safety Assistance Plan, and the Missouri Blueprint for Safer Roadways to reduce traffic crashes, prevent serious injuries and save lives. This category includes the Highway Safety Program, Motor Carrier Safety Assistance Program, and Motorcycle Safety Trust Fund. The Motor Carrier Services Division, approximately 2 percent of system management costs, is the one-stop shop for commercial vehicle licensing and permits, and works with commercial vehicle safety and compliance. Commercial vehicles include trucks, tractor-trailers, buses, limousines and other vehicles that transport property, passengers or hazardous materials. System management costs are approximately 23 percent of transportation expenditures.

MoDOT's continued investment in the **fleet, facilities and information systems** infrastructure is necessary to support the system management and construction programs. Annual costs to maintain MoDOT's fleet, facilities and information systems are included in this disbursement category. These costs are approximately 4 percent of transportation expenditures.

The **Multimodal** Division works with cities, counties and regional authorities to plan improvements for public transit, railroad, aviation, waterway facilities and freight development in Missouri. These costs are approximately 3 percent of transportation expenditures. See Section 7 for further information on Multimodal Operations.

The **construction program operating costs** are costs associated with implementing MoDOT's construction program which primarily includes in-house preliminary engineering, construction engineering and right of way incidentals as identified in Sections 3 and 4. These costs are approximately 6 percent of the transportation expenditures. After deducting expenditures for other state agencies, debt service and operating costs from MoDOT's funding sources, all remaining revenues are made available for the **highway and bridge construction program**. This category encompasses payments to contractors for construction projects, right of way purchases, consultant engineering, utility relocations and federal funding for local governments that passes through MoDOT's budget. Contractor payments encompass the majority of construction program expenditures. Contractor payments, right of way purchases, consultant engineering, utility relocations and federal pass through payments are approximately 35 percent of the transportation expenditures. The construction program operating costs and highway and bridge construction program disbursements total approximately 41 percent of the transportation expenditures.

Sections 5-1 through 5-7 describe the overview of all revenue and expenditures for the Missouri Department of Transportation, which includes the Highway and Bridge Construction Program, Multimodal and Highway Safety. The remaining Sections contain only projections of future revenue and expenditures for the Highway and Bridge Construction Program. Highway Safety programs not intended for road improvements are included in Section 6. Multimodal programs are included in Section 7.

Projections of future revenues and expenditures for the Highway and Bridge Construction Program as determined by cash flow analysis

Historical highway and bridge data for the previously-described revenue and expenditure categories are combined with detailed statistical models to forecast future revenue and expenditure data. The following provides a description of each revenue and expenditure category and how they are projected.

Revenue

- Federal reimbursements
 - Obligation authority declines from \$870 million in 2014 to \$703 million for 2015 through 2019, a 19 percent decline compared to 2014 funding levels. Future federal funding is very uncertain and the federal Highway Trust Fund is currently projected to be insolvent in August of 2014.
 - Local public agencies spending down available balances (\$69 million from 2015-2019).
 - MoDOT estimates \$831 million of federal reimbursements in fiscal year 2015 will decrease to \$485 million in fiscal year 2019 due to a declining construction program, resulting from insufficient state revenues, and declining federal funding.
 - Additional detail regarding federal funding starts on Section 5-18.
- Motor fuel taxes
 - Projections are based on gasoline and diesel consumption projections from the US Department of Energy's Annual Energy Outlook 2013 (AEO 2013) for the region (region includes: ND, SD, NE, KS, MO, IA, MN).
 - In fiscal year 2015, MoDOT estimates \$481 million of motor fuel tax receipts will decrease to \$473 million in fiscal year 2019, as we suspect more Missourians will turn to more fuel-efficient vehicles due to Corporate Average Fuel Economy (CAFÉ) standards that reduce energy consumption by increasing the fuel economy of a vehicle or they may seek out other transportation options they had previously avoided. While good for the environment, these actions erode motor fuel tax revenues.
- Motor vehicle & driver licensing fees
 - Projections are based on estimates of the population over the age of sixteen from the AEO 2013 and drivers licensing renewal data from the Department of Revenue.

- In fiscal year 2015, MoDOT estimates \$272 million of motor vehicle and driver licensing fee receipts will grow to \$283 million in fiscal year 2019, an average annual growth rate of 1 percent.
- Motor vehicle sales & use taxes
 - Projections are based on real disposable income estimates from the AEO 2013.
 - In fiscal year 2015, MoDOT estimates \$297 million of motor vehicle sales and use tax receipts will grow to \$330 million in fiscal year 2019, an average annual growth rate of 3 percent. The average annual growth rate from fiscal years 2010-2013 was five percent. A complicating factor is as consumers look for ways to decrease their personal transportation costs, one option is turning to smaller, more fuel-efficient vehicles. Since these vehicles cost less, sales taxes are lower, resulting in lower transportation revenues. Economic conditions also play a factor in this category. As unemployment remains high, consumer credit problems still exist, and financial institutions continue to have tighter lending standards creating unfavorable conditions for this category.
- Interest and Miscellaneous Revenue
 - Projections are based on 1 percent earnings rate for interest revenue and historic receipts for miscellaneous revenue.
 - MoDOT estimates \$144 million of interest earned on invested funds and other miscellaneous receipts in fiscal year 2015 will decrease to \$71 million in fiscal year 2019. This category includes construction project cost reimbursements from local governments and other states.
- Bond proceeds
 - No new issuances are planned in fiscal years 2015-2019.

Total revenue

The stability and predictability of future transportation revenues are subject to many variables; however, using the Department of Energy's projections, Figure 2, Section 5-10 provides an estimate of Missouri's transportation revenues for state fiscal years 2015 through 2019. As shown in Figure 2, estimated revenue decreases from \$2 billion in state fiscal year 2015 to \$1.6 billion in

state fiscal year 2019, primarily due to a declining construction program and a pay-as-you-go type of program. See Table 1, Section 5-13 for a breakdown of revenue.

Expenditures

- Other State Agencies
 - Projections are based on fiscal year 2014 appropriation amounts; the personal service growth rate assumption is 0 percent in fiscal years 2016, 2017 and 2019; 2 percent in fiscal years 2015 and 2018; fringe benefit growth rates average 3 percent for fiscal years 2015-2019; and expense and equipment growth rates are 0 percent for fiscal years 2015-2019.
 - In fiscal year 2015, MoDOT estimates \$234 million of other state agency expenditures grow to \$245 million in fiscal year 2019.
- Debt Service
 - Projections are based on the repayment of outstanding state road bonds.
 - Amounts do not include capital or operating lease payments.
 - In fiscal year 2015, MoDOT estimates \$293 million of debt service expenditures grow to \$304 million in fiscal year 2019.

Figure 2: MoDOT's Anticipated Highway and Bridge Revenues for State Fiscal Years 2015-2019*

*Figure does not include existing cash balances.
See Table 1 for a breakdown of revenue and existing cash balances.

- Operating Costs (includes Administration; System Management; Fleet, Facilities and Information Systems; Multimodal; and Construction Program Operating costs)
 - Projections are based on the fiscal year 2014 budget and fiscal year 2015 appropriations request; the personal service growth rate assumption is 0 percent in fiscal years 2016, 2017 and 2019, 2 percent in fiscal years 2015 and 2018; fringe benefit growth rates average 3 percent; and expense and equipment growth rates average 0 percent for fiscal years 2015-2019.
 - In fiscal year 2015, MoDOT estimates \$702 million of operating expenditures grow to \$729 million in fiscal year 2019, an average annual growth rate of 1 percent.
- Construction Program expenditures
 - Projections are based on a cash flow model that calculates payment schedules of MoDOT's active and future construction projects as provided in Section 4 of the STIP.
 - Contractor payments, right of way purchases, consultant engineering, accelerated program payments, suballocated federal funding for local governments and utility relocation costs are included.
 - In fiscal year 2015, MoDOT estimates \$1.1 billion of construction program disbursements that falls to \$467 million in fiscal year 2019. See Table 1, Section 5-13 for further details on the Construction program expenditures.

Total expenditures

Consistent with future transportation revenues, future transportation expenditures are also subject to many variables; however, using historical trends and various economic indicators, Figure 3, Section 5-12 provides an estimate of Missouri's transportation expenditures for state fiscal years 2015 through 2019. As shown in Figure 3, estimated transportation expenditures (including costs associated with state advance construction projects, see Section 5-20 through 5-21 for further discussion on state advance construction projects), will decline from \$2.3 billion in fiscal year 2015 to \$1.7 billion in fiscal year 2019. From fiscal years 2015-2019, total expenditures exceed total revenue by \$890 million, which is offset by projected cash balances totaling approximately \$1 billion available at the beginning of fiscal year 2015. The construction expenditures are derived from the cash flow analysis on the 2015-2019 Highway and Bridge Construction Schedule (Section 4). These amounts decline primarily due to the end of many larger projects awarded in previous fiscal years. Assumptions for the construction program expenditures are in the next subsection. The remaining expenditures are expected to have inflationary growth as outlined above. See Table 1 in Section 5-13 below for a breakdown of expenditures by each budget category.

Missouri's Statewide Transportation Improvement Program (STIP) includes a five-year plan of highway and bridge construction projects, which is financially constrained for each fiscal year. Table 1 provides the cash flow analysis summary for the fiscal year 2015-2019 STIP. An adequate cash flow balance is maintained as determined by projected monthly cash balances in any given year. MoDOT maintains at least a \$100 million cash balance based on debt covenants and cash reserve to manage revenue and expenditure fluctuations. The amounts only include revenues and disbursements dedicated to highways and bridges since Multimodal and a portion of Highway Safety funding cannot be included in the minimum cash balance.

Table 1: MoDOT Construction Cash Flow Projections for Roads and Bridges for Fiscal Years 2015-2019

Dollars in Millions													
Additions to Cash Balance							Subtractions from Cash Balance						
<----->													
Fiscal Year	Beginning Cash Balance	Federal Reimbursement*	Motor Fuel Tax Revenue	Motor Vehicle & Drivers Licensing Revenue	Motor Vehicle Sales and Use Tax Revenue	Interest and Misc. Revenue	Other State Agencies	Debt Service	Administ-ration	System Manage-ment	Fleet, Facilities and Inform-ation Systems	Total Construction Disburse**	Ending Cash Balance
2015	\$1,006.8	\$831.4	\$480.6	\$272.3	\$296.9	\$144.4	\$233.7	\$293.1	\$52.7	\$445.4	\$78.0	\$1,202.6	\$726.9
2016	\$726.9	\$632.2	\$480.4	\$274.8	\$305.8	\$95.8	\$250.8	\$284.4	\$53.8	\$449.9	\$78.3	\$1,007.5	\$391.2
2017	\$391.2	\$600.5	\$478.2	\$277.4	\$313.3	\$85.0	\$237.8	\$303.5	\$56.0	\$451.2	\$78.4	\$799.9	\$218.8

*Includes regular federal funds, federal advance construction conversions and sub-allocated pass-through funds to local governments.

** Includes engineering, payments (see Section 4) and sub-allocated funds to local governments. See Table 2, Section 5-14 (blue line) for further analysis.

Construction Program

The actual dollar amounts for right of way and construction projects awarded in prior fiscal years, the estimated award amount for right of way and construction projects programmed in the STIP along with estimates for the construction budget based on the cash flow analysis of existing construction contracts and future construction contracts, as provided in Section 4, are summarized in the following discussion. For example, a construction contract awarded today can result in contractor payments over multiple years as the project is completed. The future award amount assumptions and the contractor payments assumptions resulting from the cash flow analysis are summarized in Table 2. Other expenditures are included in the Highway and Bridge Construction Program in addition to awards. These other expenditures include utility relocation payments, right of way payments, MoDOT and Consultant engineering,

and accelerated program payments, as well as suballocated federal dollars that pass through MoDOT to local governments. The Total Construction Disbursements in Table 2 below (blue line) match the Construction Disbursements from Table 1 in Section 5-13 (blue column).

Table 2: STIP construction awards versus contractor payments

How we budget for STIP projects (dollars in millions)							
	Award	FY15	FY16	FY17	FY18	FY19	Future FY
Prior FY Remaining Balance	\$612.2	\$590.3	\$21.9	-	-	-	-
FY15	\$720.0	\$223.3	\$477.7	\$19.0	-	-	-
FY16	\$596.0	-	\$184.9	\$395.9	\$15.2	-	-
FY17	\$339.0	-	-	\$105.0	\$226.6	\$7.4	-
FY18	\$325.0	-	-	-	\$100.8	\$217.5	\$6.7
FY19	\$325.0	-	-	-	-	\$100.8	\$224.2
Contractor Payments:		\$813.6	\$684.5	\$519.9	\$342.6	\$325.7

Right of Way Payments		\$20.0	\$11.0	\$7.0	\$7.0	\$7.0	
MoDOT and Consultant Engineering		\$154.0	\$137.0	\$137.0	\$140.0	\$130.0	
Federal Pass Through		\$167.0	\$139.0	\$120.0	\$120.0	\$120.0	
Payments* (see Section 4)		\$40.0	\$31.0	\$14.0	\$13.0	\$13.0	
Total Construction Disbursements		\$1,202.6	\$1,007.5	\$799.9	\$624.6	\$597.7	

* Payments include dollars to be paid back for accelerating a project or payments to others. Payments do not include GARVEE debt service payments.

Table 3 summarizes the total available funding for the highway and bridge construction program for state fiscal years 2015-2019 based on cash flow projections. These amounts do not include sub-allocated federal funds since they are administered by local governments.

Table 3: Highway and Bridge Construction Funding Summary

Dollars in Millions

State Fiscal Year	2015	2016	2017	2018	2019	Total
Available for Awards	\$720.0	\$596.0	\$339.0	\$325.0	\$325.0	\$2,305.0
Available for Right of Way, Utilities, etc.	\$28.0	\$16.0	\$9.0	\$9.0	\$9.0	\$71.0
Available for Payments (see Section 4)	\$104.5	\$95.5	\$78.5	\$77.5	\$77.5	\$433.5
Available for Engineering	\$154.0	\$137.0	\$137.0	\$140.0	\$130.0	\$698.0
Total Available	\$1,006.5	\$844.5	\$563.5	\$551.5	\$541.5	\$3,507.5

Table 4, Section 5-16 summarizes the programmed levels for state fiscal years 2015-2019. State Fiscal Years 2017, 2018 and 2019 are purposefully under programmed in order to accommodate unforeseen changes.

This STIP does not include adjustments for anticipated award savings, as past STIPs have. While projects awarded since 2007 reflected significant savings when compared to the programmed amounts, that pattern did not continue for projects awarded in 2014.

Table 4, Section 5-16 includes adjustments for additional funding from partnering agencies above what is assumed for State Fiscal Years 2015 and 2016. State Fiscal Year 2015 includes a small adjustment for the net amount of projects delayed from 2014.

Table 4: Highway and Bridge Construction Program Summary

Dollars in Millions

State Fiscal Year	2015	2016	2017	2018	2019	Total
Total Programmed	\$960.7	\$758.6	\$313.5	\$250.8	84.5	\$2,368.1
Less Programmed for Engineering	\$78.1	\$51.2	\$14.0	\$8.2	\$1.2	\$152.7
Less Programmed for Right of Way, Utilities, etc.	\$30.0	\$13.7	\$1.3	\$0.8	\$0.1	\$45.9
Less Programmed for Payments	\$106.3	\$93.4	\$86.4	\$77.3	\$64.6	\$428.0
Programmed for Awards	\$746.3	\$600.3	\$211.8	\$164.5	\$18.6	\$1,741.5
Less Reasonably Available Due to Award Savings	\$0.0	\$0.0	\$0.0	\$0.0	\$0.0	\$0.0
Less Additional Funding From Others	\$25.1	\$0.3	\$0.0	\$0.0	\$0.0	\$25.4
Less Net Amount Delayed from 2014	\$5.9	\$0.0	\$0.0	\$0.0	\$0.0	\$5.9
Awards Anticipated with Funding Projected	\$715.3	\$600.0	\$211.8	\$164.5	\$18.6	\$1710.2

Funding Distribution

The Missouri Highways and Transportation Commission approved a funding distribution method in January of 2003 that was modified in June of 2004 and again in February of 2006. A modification in February of 2011 increased the amount set aside for the Cost Share and Economic Development program from \$30 million per year to a variable amount which ranges from \$35.39 million to \$36.15 million in this STIP. A modification in March 2012 increased the base amount set aside for the Cost Share and Economic Development program by \$10 million per year plus a variable amount based on project savings. This funding distribution and its subsequent modifications were developed with extensive public involvement and are consistent with MoDOT's Mission, Values and Tangible Results. The following steps outline the distribution of funds for the Highway and Bridge Construction Program.

Of the total funds available, including federally earmarked funds:

Step 1: Deduct federally sub-allocated funds designated for specific purposes (Varies).

Step 2: Deduct funding for other transportation modes (aviation, railways, transit and waterways) appropriated by the state legislature for the designated purposes (Varies). This funding cannot be used for roads and bridges.

Step 3: Deduct the financing cost for projects accelerated through bond financing (Varies).

Step 4: Deduct funding for specific funding sources (Varies). This includes categories such as Statewide Transportation Enhancement/Alternatives funds, special safety funds (Open Container, High Risk Rural Roads, and Repeat Offender), semi-annual reimbursements, Amendment 3 Funds for use on Element 3 of MoDOT's Smoother, Safer, Sooner Program and federal discretionary (above-formula) earmarks for distribution to the related earmarked projects.

Step 5: Deduct funding for the Economic Development and Cost Sharing Program (Varies).

Step 6: Deduct funding contributed by Partnering Agencies (Varies). These are funds dedicated to specific projects such as a city's portion of a cost share project.

Step 7: Deduct funding for project savings (Varies). Savings or debits are credited or debited to specific districts or programs.

Of the remaining funds available for road and bridge improvements:

Step 1: Allocate up to \$460 million per year to Taking Care of the System. Less than \$460 million is available in 2017, 2018 and 2019. Allocate these funds as follows:

- \$125 million for Interstates/Major Bridges (partially funded in 2017, 2018 and 2019)
- \$ 25 million for Safety Projects (fully funded)
 - Distribution based on a three-year average accident rate.
- \$310 million for remaining Taking Care of System (partially funded in 2017, 2018 and 2019)
 - Distribution based on a formula that averages:
 - Percent of total Vehicles Miles Traveled (VMT) on the National Highway System and remaining arterials.
 - Percent of square feet of state bridge deck on the total state system.
 - Percent of total lane miles of National Highway System and remaining arterials.

Step 2: Allocate up to \$131 million per year to Flexible Funds that can be used for either Taking Care of the System or Major Projects and Emerging Needs. This amount may be reduced if funding is not available. No flexible funds are available for 2017, 2018 and 2019.

- Distribution based on the average of:
 - Percent of total population.
 - Percent of total employment.
 - Percent of total VMT on the National Highway System and remaining arterials.

Step 3: Allocate remaining funds, if any, to Major Projects and Emerging Needs. There are no remaining funds to allocate in 2017, 2018 and 2019. These funds are distributed to the three Transportation Management Areas and the rural area based on a formula that averages:

- Percent of total population.
- Percent of total employment.
- Percent of total VMT on the National Highway System and remaining arterials.

Half of the rural area funding is distributed to the districts based on the above factors. The other half of the rural funding will be used for statewide rural projects.

Federal Funding

The current transportation bill, “Moving Ahead for Progress in the 21st Century” (MAP-21), was signed into law by President Obama on July 6, 2012. MAP-21 creates a streamlined, performance-based, and multimodal program to address the many challenges facing the U.S. transportation system. These challenges include improving safety, maintaining infrastructure condition, reducing traffic congestion, improving efficiency of the system and freight movement, protecting the environment, and reducing delays in project delivery.

MAP-21 funds surface transportation programs for fiscal years 2013 and 2014. The funding is slightly less than provided in the previous transportation bill, “Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users” (SAFETEA-LU). The funding levels require transfers of \$2.4 billion from the Leaking Underground Storage Tank Trust Fund and \$18.8 billion from the General Fund to the Highway Trust Fund.

MAP-21 restructures core highway formula programs. Activities carried out under some existing formula programs – the National Highway System Program, the Interstate Maintenance Program, the Highway Bridge Program, and the Appalachian Development Highway System Program – are incorporated into the following new core formula program structure:

- National Highway Performance Program (NHPP)

- Surface Transportation Program (STP)
- Congestion Mitigation and Air Quality Improvement Program (CMAQ)
- Highway Safety Improvement Program (HSIP)
- Railway-Highway Crossings (set-aside from HSIP)
- Metropolitan Planning

It creates two new formula programs:

- Construction of Ferry Boats and Ferry Terminal Facilities – replaces a similarly purposed discretionary program.
- Transportation Alternatives (TA) – a new program, with funding derived from the NHPP, STP, HSIP, CMAQ and Metropolitan Planning programs, encompassing most activities funded under the Transportation Enhancements, Recreational Trails, and Safe Routes to School programs under SAFETEA-LU.

MAP-21 expires on September 30, 2014. Congressional action is required to continue federal funding beyond MAP-21.

Our forecasted federal revenue is based on our anticipated annual obligation limitation, which is the amount of authorized funding Congress allows states to obligate in any given year. Federal funding for the 2015-2019 STIP will be obligated for the following (1) suballocated funding that flows through MoDOT to local governments, (2) converting advance construction projects and (3) current lettings. First, suballocated federal funds will

pass through MoDOT to local governments. Second, MoDOT will convert advance construction projects to regular federal funds (see

Sections 5-20 through 5-21 for further information on advance construction). Lastly, any remaining federal funding will be available for current lettings. See Figure 4, Section 5-19 for federal obligation authority assumptions used for the 2015-2019 STIP.

MoDOT anticipates using the advance construction balance to ensure all federal funds are matched. MoDOT's estimate shows advance construction balances dramatically decrease, which will eventually create a significant challenge for MoDOT to match the anticipated amount of available federal funds.

Advance Construction (AC)

MoDOT uses a federal funding tool called advance construction to maximize the receipt of federal funds and provide greater flexibility/efficiency in matching federal-aid categories to individual projects. Advance Construction (AC) is an innovative finance funding technique, which allows states to initiate a project using non-federal funds, while preserving eligibility for future federal-aid. Eligibility means the Federal Highway Administration (FHWA) has determined the project qualifies for federal-aid; however, no present or future federal-aid is committed to the project. States may convert the project to regular federal-aid provided federal aid is available for the project. AC does not provide additional federal funding, but simply changes the timing of receipts by allowing states to construct projects with state or local money and seek federal-aid reimbursement in the future.

MoDOT began using AC in 1992 and will continue to use it in future years. MoDOT utilizes

AC for National Highway Performance Program (NHPP) and Surface Transportation System (STP) projects or when sufficient obligation limitation is not available. The average number of days as obtained from FHWA's Fiscal Management Information System (FMIS) last transaction date is 196 days as of the first quarter of federal fiscal year 2014. Figure 5, Section 5-20, shows the projects grouped by age in six-month increments and the dollar amount and the number of projects in each group.

MoDOT anticipates sufficient revenue exists to cover new AC projects over the STIP horizon, as shown in Table 1, Section 5-13. Funding sources include existing cash balances, state motor fuel, motor vehicle sales and use tax and motor vehicle licensing and fees revenue, federal reimbursement (includes conversion of AC), interest and miscellaneous revenue as shown in Figure 2, Section 5-10.

Table 5, Section 5-21, provides MoDOT's AC forecast, which shows the projected balance at the end of each fiscal year. State funds pay for new AC project expenditures until federal-aid is available. Once federal-aid is available, the projects are converted to federal funds and previous state expenditures are reimbursed. The oldest projects are converted first, if possible, to maximize federal-aid reimbursement. Which projects are converted also depends on what federal funds are made available. As displayed in Table 5, MoDOT anticipates the AC balance to decline from state fiscal years 2015 to 2019. The AC balance is driven by the relationship between available federal funds and the construction program. For example, if available federal funds are significantly lower than the size of the construction program, the AC balance will increase. The amounts in Table 5 are based on MoDOT's AC forecast. Also included in Table 5 are AC conversions of projects from prior STIPs. The amounts are subject to change based on future federal apportionment amounts and categories.

Table 5: MoDOT's Advance Construction Forecast Estimates

Dollars in Millions

State Fiscal Year	2015	2016	2017	2018	2019
Beginning AC Balance*	\$384	\$529	\$575	\$393	\$200
Plus: New AC Projects (incl. Unprogrammed)**	\$498	\$399	\$189	\$178	\$7
AC Subtotal	\$882	\$928	\$764	\$571	\$207
Less: AC Conversions (prior STIP projects)	\$353	\$31	\$0	\$0	\$0
Less: AC Conversions (incl. Unprogrammed)**	\$0	\$322	\$371	\$371	\$200
Estimated Ending AC Balance	\$529	\$575	\$393	\$200	\$7

*Estimated Beginning AC Balance

**Additional projects will be programmed in outer years of the STIP

Appendix A lists partial AC projects. These projects are shown as AC in Section 4, but part of the projects will be federal, not AC.

Appendix A: 2015 - 2019 STIP Construction Projects That are Partial Advance Construction Projects

District	County	Route	Job Number	Description	SFY	Federal Amount (x \$1,000)
NW	Harrison	136	1P2225	Pavement and shoulder improvements from east of I-35, in Bethany, to the Mercer County line. \$771,000 Open Container funds.	2015	771
NW	Clinton	C	1S3088	Thin pavement treatment and shoulder improvements from Rte. 116 in Plattsburg to Clay County line. \$760,000 Open Container funds.	2016	760
NE	Lincoln	U	2S3001	Pavement and shoulder improvements from Rte. J to 0.7 mile west of Rte. 61 near Moscow Mills. Includes pavement improvements on Rte. 61 west outer road. \$154,000 Open Container, \$923,000 Repeat Offender and \$14,000 High Risk Rural Roads.	2015	1,091
NE	Marion	79	2S3006B	Pavement improvements from 0.3 mile south of I-72 interchange to 0.1 mile north of Rte. T in Hannibal. Project also includes pedestrian and ADA improvements. \$294,000 Statewide Transportation Enhancement funds.	2015	294
NE	Audrain	54	2S3006D	Pedestrian improvements on north and south sides of road from Martin Luther King Drive to Christy Street in Mexico. \$93,000 Statewide Transportation Enhancement funds.	2016	93
NE	Ralls	61	3P2206	Pavement and intersection improvements on northbound and southbound lanes from Warren Barrett Drive in Hannibal to 0.5 mile south of Rte. 19 near New London. \$872,000 Open Container funds.	2015	872
NE	Audrain	22	3P2207	Pavement improvements from 0.1 mile west of Rte. E in Audrain County near Mexico to Rte. F in Boone County. \$800,000 Open Container funds.	2016	800
KC	Pettis	65	3P3037C	Pavement improvements on Rte. 65 from Rte. 765 to Rte. B, Rte. 50 from Rte. MM to Rte. 65, Rte. 765 from Rte. 65 to south Prospect Avenue. \$247,000 Statewide Transportation Enhancement funds.	2016	247
KC	Lafayette	23	3S3034	Pavement improvements and sidewalk repair from I-70 to 15th Street in Concordia. \$120,000 Statewide Transportation Enhancement funds.	2015	120
KC	Lafayette	131	3S3040	Corridor improvements, including roadway widening and sidewalk improvements, from Rte. 40 to Kelly Street in Odessa. \$382,351 Cost Share 2015, \$622,000 Odessa, \$155,000 Statewide Transportation Enhancement funds.	2015	155
KC	Clay	35	4I3005	Interchange, ramp and auxiliary lane improvements from I-435 interchange to Pleasant Valley Road/South Liberty Parkway/US 69 interchange. \$13,194,000 Economic Development, \$4,200,000 Liberty, \$100,000 Pleasant Valley, \$5,000,000 MARC STP-Urban. Project involves bridges A0496 & L0501.	2015	5,000
KC	Clay	435	4I3038	Pavement improvements from I-35 to Rte. 24. \$273,000 Statewide Transportation Enhancement funds.	2016	273

District	County	Route	Job Number	Description	SFY	Federal Amount (x \$1,000)
KC	Cass	49	4P2247	New interchange at 211th Street from Peculiar Drive to east outer road in Peculiar. \$4,778,000 Cost Share, \$4,777,000 Peculiar, \$165,000 Statewide Transportation Enhancement funds. MoDOT's maximum is \$8,164,000.	2015	165
KC	Cass	7	4P2257	Roadway improvements from Independence Street to Stella Avenue in Harrisonville. \$2,040,000 MARC STP-Urban funds and \$510,000 Harrisonville.	2015	2,040
KC	Jackson	40	4P2387	Intersection improvements at Lee's Summit Road. \$983,450 MARC STP-Urban.	2015	983
KC	Jackson	LEES SUMMIT RD	4P2387B	Corridor improvements, including roadway widening, signals, lighting and sidewalks, from south of Rte. 40 to south of Anderson Drive. \$7,120,000 MARC STP-Urban and \$3,998,000 Jackson County STP-3301(454).	2015	7,120
KC	Clay	291	4P3081C	Pavement improvements from south of Old Rte. 33 to Orchard Drive. \$324,000 Statewide Transportation Enhancement funds.	2016	324
KC	Jackson	AA	4S2029B	Roadway, sidewalk and ADA improvements from Walnut Street to Eagles Parkway in Grain Valley. \$1,000,000 Cost Share, \$976,360 Grain Valley, \$443,000 MARC Transportation Enhancement funds, \$120,000 STP-Urban funds.	2015	563
KC	Jackson	24	4S3052	Pavement and sidewalk improvements from Ewing Avenue to the Rte. 291 outer road in Independence. \$456,000 Statewide Transportation Enhancement funds.	2016	456
KC	Johnson	DD	4S3102Z	Payment to Johnson County for the construction of a shared use trail along Rte. DD from Pembroke Drive to SE 591 Road. \$285,563 Cost Share and \$311,121 District Transportation Enhancement funds. To be let by Johnson County as STP-6300 (406).	2015	311
KC	Platte	45	4U1108C	Corridor improvements, including roadway widening and bicycle/pedestrian accommodations, from Rte. K to I-435 in Platte County. \$3,163,740 Cost Share, \$5,794,000 MARC STP-Urban and \$1,448,500 Platte County funds.	2016	5,794
CD	Cole	50	5P0820D	Interchange at Lafayette Street and capacity improvements from Monroe St. to Clark Ave. in Jefferson City and improve Lafayette St. between Miller & McCarty St. \$999,829 from FY2010 Approp. Bill Earmark Demo ID MO237, \$140,400 Jefferson City & \$1,332,834 Cole Co. funds and \$25,000 CO Traffic budget.	2015	1,000
CD	Callaway	54	5P3011	Pavement improvements on the eastbound lanes near Kingdom City from Bus. 54 north junction to east of County Road 147. \$20,000 Strategic Highway Research Program (SHRP2) funds.	2016	20
CD	Dent	J	5S3008B	ADA improvements in Salem from Rte. 72 to Rte. 32. Includes Rte. 19 from Rte. 32 to East 11th Street. \$124,000 Statewide Transportation Enhancement funds.	2015	124
CD	Morgan	Various	5S3008D	ADA improvements in Morgan, Moniteau and Miller Counties. \$448,000 Statewide Transportation Enhancement funds.	2015	448

SE	Scott	K	9S3094	Widening to accommodate two-way left turn lane from Crites Street to Chester Street in Scott City. \$247,186 Scott City and \$204,417 STP-Urban.	2015	204

Section 6 – Federal Programs

Introduction

Transportation funding remains difficult to accurately predict for fiscal years 2015-2019. While state revenue is expected to remain stagnant, federal funding remains uncertain due to the expiration of the federal authorization act, Moving Ahead for Progress in the 21st Century (MAP-21) on September 30, 2014.

Special Programs

The following special programs were established, replaced, or continued in MAP-21

Open Container Penalty Transfer

Section 154 (Open Container) penalty transfer funds are used to address system-wide safety initiatives. Funding from this program has allowed Missouri to reduce cross-median fatalities on many of the interstates with the installation of median guard cable and other safety improvements. This funding source will continue to be used on large-scale safety initiatives that are focused on reducing problem crash types that are identified in Missouri's Blueprint to Arrive Alive.

On the Job Training Program

MAP-21 provides funding for On The Job Training activities. Missouri receives approximately \$200,000 annually for this program.

Non-State System Bridge Inspection Program

Federal law mandates that bridges must be inspected on a periodic basis. Missouri uses approximately \$500,000 of Surface Transportation Program funds annually for non-state system bridge inspections.

State System Bridge Inspection Program

Federal law mandates that bridges must be inspected on a periodic basis. Missouri uses approximately \$2 million in performance of these inspections on the state system and proposes to utilize federal funding as allowed in performance of these inspections.

Preventive Maintenance Program

Missouri continues to work with FHWA to expand federal funding of our preventive maintenance efforts for qualifying work. These efforts will include both contract and in-house efforts which are deemed preventive maintenance or have other specific approval by FHWA. Missouri typically spends between \$100 to \$150 million per year on preventive maintenance activities. Activities include striping, sign maintenance, pavement repair where full width patching or overlays are placed, pavement surface treatments or surface seals, bridge maintenance, and drainage maintenance.

Disadvantaged Business Enterprise Program

MAP-21 provides funding for Disadvantaged Business Enterprise programs. Missouri receives approximately \$200,000 annually for this program.

High-Priority and Transportation Improvement Projects

SAFETEA-LU included 5,091 high-priority projects and 466 transportation improvement projects nationwide specified by the U.S. Congress. Funding for these projects totaled \$14.8 billion and \$2.6 billion respectively over the five years of the federal transportation act with a specified percentage of the project funds made available each year. Funds for SAFETEA-LU projects are subject to the federally imposed guidelines for budgetary limitations, called obligation limitation. However, the obligation limitation associated with the projects does not expire. The following tables list Missouri's High-Priority and Transportation Improvement projects included in SAFETEA-LU and the balance remaining from the projects included in TEA-21.

Sub-Allocated Programs

Sub-allocated programs utilize transportation funds provided under the Moving Ahead for Progress in the 21st Century (MAP-21). These programs include the Off-System Bridge, On-System Bridge, Congestion Mitigation and Air Quality, Surface Transportation Programs and Transportation Alternatives. The Missouri Department of Transportation administers the respective programs through its planning and programming functions in the Jefferson City Central Office and seven district offices around the state. Projects under these programs are typically funded on an 80 percent federal match / 20 percent local match basis.

A Reasonable Progress Policy was implemented on January 1, 2005 for all of the sub-allocated programs, and updated on October 5, 2010. This policy ensures that Missouri receives the maximum benefit for its federal transportation funds. The policy has two objectives: (1) ensure that federal funds will be programmed for a project within three months of the funds being allocated by MoDOT, and (2) ensure that once a project is programmed it will be constructed. Transportation Management Areas with a reasonable progress policy in place are exempt from MoDOT's Reasonable Progress Policy.

Information on these programs and MoDOT's Reasonable Progress Policy can be found in the Local Public Agency Manual on MoDOT's web site at www.modot.mo.gov/business/manuals/localpublicagency.htm.

Off-System Bridge Replacement and Rehabilitation Program

This program funds the replacement or rehabilitation of deficient bridges located on roads functionally classified as local or rural minor collectors. MAP-21 mandates that at least \$21.2 million of the state's Surface Transportation Program (STP) apportionment be used on off-system bridges. The Missouri Highways and Transportation Commission allocates STP funds to the counties and St. Louis City for this program.

The estimated annual allocation for the Off-System Bridge Replacement and Rehabilitation Program in Missouri is \$21.2 million. These funds are distributed to the counties based on the ratio of the replacement cost of the square footage of deficient bridge deck per county compared to the replacement cost of the square footage of deficient bridge deck in all counties of the state.

Northwest District	\$5,061,000	Northeast District	\$2,836,000
Kansas City District	\$2,700,000	Central District	\$2,293,000
St. Louis District	\$1,069,000	Southwest District	\$3,704,000
Southeast District	\$3,055,000	Statewide Inspections	\$500,000

On-System Bridge Replacement and Rehabilitation Program

Large Urban Program

This program funds the replacement or rehabilitation of deficient bridges located on roads functionally classified as urban collectors, rural major collectors and arterials. The Missouri Highways and Transportation Commission allocated \$6.3 million of Surface Transportation Program (STP) funds annually during MAP-21 to the Transportation Management Areas (TMAs) of Kansas City, St. Louis and Springfield. The TMAs determined the projects for their areas. The funds for the TMAs were distributed based on the ratio of the replacement cost of the square footage of deficient bridge deck in the TMA to the replacement cost of the square footage of deficient bridge deck in all TMAs of the state.

Small Urban Program

This program funds the replacement or rehabilitation of deficient bridges located on roads functionally classified as urban collectors, rural major collectors and arterials. The Missouri Highways and Transportation Commission allocated \$500,000 of Surface Transportation Program (STP) funds annually during MAP-21 for urban clusters (small cities) with a population between 5,000 and 200,000. A statewide competitive process is used to select projects located in small cities.

Surface Transportation Program

Large Urban Program

This program funds projects such as pavement preservation, bridges, highway expansion, congestion mitigation, safety, environmental mitigation, transit, and pedestrian facilities. MAP-21 mandates that a portion of the Federal Surface Transportation Program funds be spent in the Transportation Management Areas. Transportation Management Areas are urbanized areas with populations greater than 200,000 (large cities). Missouri has four Transportation Management Areas – Kansas City, St. Louis, Springfield and Fayetteville-Springdale-Rogers, AR-MO. Their allocations are distributed based on their population relative to the state.

The Surface Transportation Program has the most flexible funding allocation among the sub-allocated programs. Projects on roads functionally classified as local or rural minor collectors are not eligible for these funds. However, all bridge projects are eligible, regardless of their functional classification.

The Transportation Management Area identifies needs that will address regional transportation issues. The Transportation Management Area works in coordination with the state and local agencies to define the scope of projects, to address the regional needs and to identify appropriate project sponsors. Any agency, state or local, that wants to sponsor a project submits an application to the

Transportation Management Area. Projects that MoDOT sponsors compete with all other applications for Large Urban Funding using the Transportation Management Area-defined prioritization process.

The annual allocation for the Large Urban Program in Missouri is approximately \$60 million. This figure includes the urban clusters (populations between 5,000 to 50,000) and small urbanized areas (population between 50,000 to 200,000) within the Kansas City, St. Louis and Southwest district boundaries.

Small Urban Program

The Missouri Highways and Transportation Commission allocated \$3.5 million of Surface Transportation Program funds annually during MAP-21 for use in cities with an urban cluster population between 5,000 and 50,000 or an urbanized area population between 50,000 and 200,000. Project examples include pavement preservation, bridges, highway expansion, congestion mitigation, safety, environmental mitigation, and transit and pedestrian facilities.

Transportation Alternatives Program

Project examples include facilities for bicycle and pedestrian activities, construction of overlooks for scenic views, control and removal of outdoor advertising, and wildlife crossings. Projects are selected through a competitive process. The annual allocation for the Transportation Alternatives Program in Missouri is approximately \$18 million.

Congestion Mitigation and Air Quality

Project examples include alternative fuel vehicle research, signal coordination, transit services, intelligent transportation systems, bike/pedestrian facilities, rideshare programs, programs to educate the public about air quality ozone issues, construction of high occupancy vehicle lanes and congestion management systems. MAP-21 mandates that federal funds for this program be spent on projects that improve air quality in affected areas. Affected areas are defined as areas that are required by the Clean Air Act to address air quality issues. MoDOT distributes funding to eligible areas for project selection. The EPA determines the geographical boundaries for this program.

The Federal Highway Administration and the EPA establish the Congestion Mitigation and Air Quality Improvement Program funding levels and eligible work types. The purpose of these funds is to reduce transportation-related emissions and improve air quality. A Congestion Mitigation and Air Quality guidance booklet is available at http://www.fhwa.dot.gov/environment/air_quality/cmaq.

Missouri receives approximately \$23 million annually. The Missouri Highways and Transportation Commission approved a funding distribution such that the estimated minimum guarantee of CMAQ funds to Missouri is distributed to St. Louis and Kansas City. The remaining CMAQ funds (the total Missouri CMAQ funds less the estimated minimum guarantee) will be distributed to the areas not meeting federal air quality requirements. St. Louis - \$20 million, Kansas City - \$3 million.

Recreational Trails Program – Department of Natural Resources

The Recreational Trails Program was authorized in the 2005 Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), and the update to the Recreational Trails Program Funding Information (Revised 10/18/2012): On July 6, 2012, the President signed the “Moving Ahead for Progress in the 21st Century Act” (MAP-21, reauthorizing the federal highway program and providing funds for the RTP through September 30, 2014. The Recreational Trails Program is a federal-aid assistance program that helps states provide and maintain recreational trails for both motorized and non-motorized recreational trail uses. Annual funding for this program is approximately \$1,600,000. The program provides funds for many recreational trail uses, such as pedestrian (hiking, running, walking, wheelchair use) bicycling, equestrian, off-road motorcycling, all-terrain vehicle riding and four-wheel vehicle driving.

The Department of Natural Resources holds a competitive grant round each year and distributes the funding in response to recreational trail needs within the state. The Recreational Trails Program competitive grants are scored and ranked by an eight member Missouri Trail Advisory Board which represents diverse trail interest groups. The Recreational Trails Program encourages trail enthusiasts to work together to provide a wide variety of recreational trail opportunities.

The fiscal year 2013 Missouri grantees, approved in the fall of 2013, are shown in the tables on the following pages. Federal fiscal year 2014 will not be selected until the fall of 2014.

For a grant application or to address questions regarding the Recreational Trails Program, call Missouri Department of Natural Resources’ Division of State Parks’ Grants Management Section at (573) 751-3442:

Recreational Trails Program - FY2013 Grant Recipients

Grant #	Project Sponsor and Scope of Work	Project Cost	Grant Award
2013-01	Missouri State Parks Develop, renovate and maintain trails and various trail amenities in Missouri State Parks. <i>Statewide</i>	\$478,227	\$382,581
2013-02	U.S. Forest Service-Mark Twain National Forest Construct 21 miles of natural trail surface trail (bicycling, hiking, and running) in Mark Twain National Forest in southeast Missouri. <i>Butler County</i>	\$226,150	\$93,190
2013-03	Forest Park Forever Renovation of 5.56 miles of the Forest Park Dual Path asphalt trail system. <i>St. Louis City</i>	\$170,000	\$100,000
2013-04	Show-Me Missouri Back Country Horsemen Construct a trailhead and a 1.5 mile connector trail to the Blair Creek Trail both located in the Roger Pryor Wilderness Backcountry. <i>Shannon County</i>	\$16,074	\$3,549
2013-05	Office of Administration Construct 6 miles of trail to connect to Phase I of the Missouri State Penitentiary Greenway Trail within the 140 acre MSP Redevelopment Site. <i>Cole County</i>	\$141,800	\$100,000
2013-06	Tower Grove Park Construct .18 miles of crushed stone trail through Tower Grove Park. <i>St. Louis City</i>	\$137,254	\$82,352

Grant #	Project Sponsor and Scope of Work	Project Cost	Grant Award
2013-07	Wright Memorial Hospital Foundation Construct .55 miles of concrete based trail that will circle the Wright Memorial Hospital which will include trail amenities, bridge and signage on the trail. <i>Grundy County</i>	\$200,000	\$100,000
2013-08	Springfield-Greene County Park Board Construct 1.5 miles of 10 foot wide asphalt trail and concrete multi-use bicycle/pedestrian trail along Wilson's Creek to connect two existing trail sections. <i>Greene County</i>	\$219,960	\$100,000
2013-09	City of Holts Summit Construct .34 miles of 5-foot wide trail to connect two existing trails that are located within city parks including two bench areas, four fitness stations, and a trailhead shelter. <i>Callaway County</i>	\$123,825	\$95,060
2013-10	City of Columbia Parks and Recreation Renovation of an existing trail bridge along the City of Columbia's Hinkson Creek Trail. <i>Boone County</i>	\$167,000	\$100,000
2013-11	City of California Renovate 1.03 miles of trail around Proctor Lake, purchase ADA restrooms, and purchase trail fitness equipment for three stations along the trail. <i>Moniteau County</i>	\$210,187	\$100,000

Grant #	Project Sponsor and Scope of Work	Project Cost	Grant Award
2013-12	City of Maryville Construct .33 mile of multi-purpose concrete trail at Mozingo Lake Recreation Park. <i>Nodaway County</i>	\$136,734	\$100,000
2013-13	City of Warsaw Renovate .34 miles of concrete trail and light stands. <i>Benton County</i>	\$131,292	\$75,592
2013-14	City of Kansas City, Missouri-Public Works Department Construct .31 miles of bicycle and pedestrian trail will be a part of the bi-state Kansas City Riverfront Heritage Trail System. <i>Jackson County</i>	\$270,000	\$99,518
2013-15	City of Columbia Parks and Recreation Department Development of a detailed Columbia Trails Systems Map and Guide (six destination trails in Columbia) and design/install trail mile markers on those six trails. <i>Boone County</i>	\$23,125	\$18,500

Federal Lands Access Program

The Federal Lands Access Program is a subcomponent of the Federal Lands Highway Program, as authorized in MAP-21. The Federal Lands Access Program provides funds for projects on Federal Lands access transportation facilities that are located adjacent to, or that provide access to Federal lands. Eligible activities include:

- Transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, construction and reconstruction of Federal lands access transportation facilities located on or adjacent to, or that provide access to, Federal land, and –
 - adjacent vehicular parking areas;
 - acquisition of necessary scenic easements and scenic or historic sites;
 - provisions for pedestrians and bicycles;
 - environmental mitigation in or adjacent to Federal land to improve public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity;
 - construction and reconstruction of roadside rest areas, including sanitary and water facilities; and
 - other appropriate public road facilities.
- Operations and maintenance of transit facilities
- Any transportation project eligible for assistance under title 23 of the United States Code that is within or adjacent to, or that provides access to, Federal land.

Federal lands access transportation facilities include public highway, road, bridge, trail, or transit systems that are located on, adjacent to, or provide access to Federal lands for which title or maintenance responsibility belongs to a state, county, town, township, tribal, municipal or local government.

The Eastern Federal Lands Highways Division of the Federal Highway Administration administers the program in Missouri and is currently working with the states under its jurisdiction to further develop the framework for administering the program as well as selecting projects for programming. The resulting Federal Lands Access Transportation Improvement Program for Missouri will be incorporated without modification into the Statewide Transportation Improvement Program by reference.

Additional information about the Federal Lands Access Program may be found at <http://flh.fhwa.dot.gov/programs/flap/> .

Section 7 – Multimodal Operations

Multimodal Operations

The Multimodal Operations Division performs statewide planning; grant administration, and technical assistance, in the areas of aviation, railroads, transit, freight development and waterways. In addition, MoDOT does have regulatory responsibility over railroads.

This section begins with an estimated financial summary for the next five state fiscal years. Financial information for fiscal year 2015 is based on the best available information. Changes in any fiscal year may occur depending on the availability of state, federal or local funds; federal or state laws and regulations; local goals and objectives; or unforeseen changes in planning variables.

Program descriptions, funding priorities and associated projects are described within the appropriate modal area of responsibility. The programs and projects identified in this section are based on the best information available at the time of printing.

Multimodal Operations

State Transportation Assistance Revolving Fund

In 1996, Senate Bill 780 established the State Transportation Assistance Revolving Fund, and an initial appropriation of \$2.5 million was made in 1997. Provisions are contained in state statute 226.191. The Missouri Highways and Transportation Commission administer the fund, which assists political subdivisions or not-for-profit organizations in the development of non-highway related transportation facilities. This includes aviation, rail, water, freight or mass transit facilities. Funds cannot be used for operating expenses or for the construction or maintenance of state highways. The following are the specific eligibility requirements:

- The planning, acquisition, development and construction of facilities for transportation by air, water, rail, freight or mass transit;
- The purchase of vehicles for the transportation of elderly or handicapped persons; or
- The purchase of rolling stock for transit purposes.

Applications are received at any time; however, they are reviewed twice a year on March 1 and September 1. Loans are awarded based on the type of project, the benefit to the public, the financial viability and the local sponsor's willingness and ability to complete the project. Loan repayments and any interest earned go back into the fund for additional transportation projects. Since its inception, this program has been primarily used to help local public airports finance improvements not eligible for federal or state grant programs. This includes a number of T-hangar, terminal building and fuel facility projects. The program also assisted in financing a multimodal facility in St. Louis to bring together passenger rail, Metro Link and public transit modes.

Aviation

Grant Program Funding - Aviation grant programs assist eligible sponsors in the planning, purchase, construction, maintenance and improvement of airports.

Federal funding is appropriated by the U.S. Congress through the Federal Airport Improvement Program and provides up to 90 percent of eligible project costs. Missouri is one of ten states currently participating in the State Block Grant Program under which MoDOT administers federal aviation funding to general aviation airports. The FAA programs and administers federal funding to the larger airports with commercial passenger service over 10,000 annual passenger enplanements.

There is a significant amount of uncertainty associated with federal aviation funding. Notification of the amount to be received and the actual transfer of funds often do not occur until several months into the federal fiscal year. Also, programs such as the non-primary airport entitlement program can significantly impact funding available for MoDOT programming, but it is only implemented if Congress appropriates funding above a threshold level. There are currently 70 airports participating in this entitlement program. Eligible airports may receive federal funding of up to \$150,000 annually. MoDOT is basically a pass-through agency for the non-primary airport entitlement program. Current federal legislation for the extension of the non-primary entitlement program expires in 2016. There are also opportunities for additional federal funding through discretionary grants. MoDOT staff will continue to aggressively pursue this additional funding whenever possible.

State funding comes from the State Aviation Trust Fund, which derives its revenue from a portion of the state sales tax on jet fuel and a 9-cent per gallon tax on aviation gasoline. On state/local projects, the state can provide up to 90 percent of eligible project costs. The state can also provide up to 50 percent of the local share on federally funded projects. Safety-related equipment and services do not require cost sharing.

Project Priorities - The primary sources for prioritizing airport projects are the FAA National Plan of Integrated Airport Systems, MoDOT State Airport System Plan, and coordination with East-West Gateway Council of Governments and Mid-America Regional Council. The National Plan of Integrated Airport Systems establishes basic criteria for airports to be eligible for federal aviation funds. The State Airport System Plan is a working document updated regularly to reflect current activity levels and changes to airport facilities and air navigation aids.

Project applications are reviewed and funds are distributed based on an established priority system that considers items such as the number of based aircraft, activity levels and the type of project requested. Other factors considered are the political subdivision's willingness and ability to complete the project, commitment of local matching funds, prior maintenance and support of the airport, and aviation staff knowledge of airport needs. While this part is subjective, it is based upon facts and experience.

Railroads

Missouri is located in the central corridors of the nation's railroad transportation system, with St. Louis and Kansas City being the second and third largest rail hubs in the nation, behind only Chicago, IL. Approximately 60 percent of the freight products entering Missouri, both raw materials and finished products, are moved into Missouri on the rail system. The rail system is also critical to the nation's passenger rail transportation and Missouri's passenger service between St. Louis and Kansas City.

The MoDOT Multimodal Division administers the state's railroad program. This program includes freight rail regulation, passenger rail, light rail safety regulation, highway/rail crossing safety, rail/highway construction, and railroad safety inspection and outreach.

Passenger Rail - Two round-trips per day are currently provided between St. Louis and Kansas City (*Missouri River Runner*), with stops in Kirkwood, Washington, Hermann, Jefferson City, Sedalia, Warrensburg, Lee's Summit and Independence. In FY 12, service was provided to more than 192,000 passengers. There is not a dedicated funding source for passenger rail. Passenger rail is subject to legislative general revenue appropriation each year.

The passenger rail route is owned and maintained by Union Pacific Railroad. MoDOT, Union Pacific Railroad, and Amtrak have focused recent attention on improving passenger train on-time performance through improved coordination, efficient dispatching, bottleneck removal and capacity enhancements.

Prior to the end of 2014 Missouri secured nearly \$50 million in Federal Railroad Administration funding to improve passenger rail services. These funds have leveraged nearly \$20 million in private investment. Projects funded target improvements in on-time performance and travel time reduction. Notable projects are a new Osage River Bridge, a universal crossover near Kirkwood, a third main line in St. Louis Terminal Railroad, a new approach to Merchant's Bridge, and upgrade 15 crossings. Projects are located along the state sponsored passenger rail line from St. Louis to Kansas City.

Also before the end of 2014, Missouri secured funding from the Federal Railroad Administration to purchase new train sets. Missouri was part of a multi-state competitive grant application to procure new train sets for Midwest passenger rail services. The four states will share the awarded \$268 million to buy new passenger cars and locomotives.

Table 7-3 Passenger Rail Funding		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019

Railroads

Highway/Rail Crossing Safety Program - There are approximately 3,800 public highway/rail crossings in Missouri. These crossings are evaluated and ranked annually according to a hazard exposure index which considers train traffic and speed, vehicle traffic and speed, crossing accident history, and sight distance. Each year, there are approximately \$6 million of FHWA Surface Transportation Program Safety Funds, and approximately \$1.2 million state funds from the state Grade Crossing Safety Account available to address safety issues at these crossings. The Grade Crossing Safety Account funds are created from a state motor vehicle licensing fee. On the average, highway/rail crossing projects cost \$200,000 - \$250,000, resulting in improvement to approximately 30 to 35 crossings per year. Project improvements typically include the installation of railroad crossing signal devices, and may vary in scope and completion dates depending on funding availability and programming restrictions each fiscal year. Project completion typically takes one year. Since 1976, this program has resulted in an 81 percent decrease in crashes; a 76 percent decrease in fatalities; and an 83 percent decrease in injuries.

Transit

Missouri public transit helps people of all ages, incomes and circumstances get around. Missouri's public transit agencies provide approximately 63 million one-way passenger trips each year. MoDOT offers financial and technical assistance to 35 public transit providers and more than 200 specialized transportation providers. Some form of public transit is available in all of the 114 counties of Missouri.

MoDOT Multimodal section administers State and Federal Transit Administration funds to Missouri transit providers supporting them with planning, maintenance, operational and capital assistance. When facility projects are selected, MoDOT's Transit section processes STIP amendments and submits them to the FTA and FHWA for review and approval.

Transit Metropolitan Planning Grants Section 5303 and Section 5305

Section 5303 and Section 5305 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - The department administers Federal Transit Administration Section 5303 and Section 5305 planning grants for transit planning activities of the eight metropolitan planning areas of St. Louis, Kansas City, Springfield, Joplin, St. Joseph, Columbia, Cape Girardeau and Jefferson City.

Funds are distributed to metropolitan planning organizations based on a federal census population formula. There is no discretion in the initial distribution of funds, although funds must address identified transit planning activities in a Metropolitan Planning Organization's Unified Planning Work Program. Unused funds can be reallocated to any urbanized area as the department determines.

MoDOT combines their funds in a consolidated planning grant to MPO's with Federal Highway Administration planning funds to simplify grant administration. Only the Section 5303 and 5305 metropolitan transit planning funds are shown on this page.

Statewide Transit Planning Grants

Section 5304

Section 5304 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - The department administers Federal Transit Administration statewide transit planning and other technical assistance activities grants that can be used for planning support, research, development and demonstration projects, fellowships for training in the public transportation field, university research and human resource development.

Federal Transit Administration distributes funds to the department based on the latest census information and the state's urbanized area as compared to the urbanized area of all states. However, a state must receive at least 0.5 percent of the amount annually apportioned. For these planning and technical assistance activities, the federal share is 80 percent, and the local non-federal share is 20 percent. This funding is used by the Department for statewide transit planning with an amount allocated to the state transit association for transit related technical assistance activities.

Urbanized Transit Systems Formula Grants

Federal Transit Administration

Section 5307 and State Financial Assistance

Section 5307 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - Funds come to Missouri on the basis of a national formula that provides capital assistance and limited operating assistance to transit systems in urban areas over 200,000 population and both capital assistance and operating assistance to transit systems in small urbanized areas with populations between 50,000 – 200,000. The department allocates funds on behalf of the Governor for the small-urbanized areas of Columbia, Joplin, St. Joseph, Jefferson City, Cape Girardeau and Lee’s Summit based on the same formula. The Federal Transit Administration allocates funds directly to the St. Louis, Kansas City, and Springfield urbanized areas.

Table 7-7 Section 5307 Funding		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019

Urbanized Transit Systems Formula Grants

Federal Transit Administration

Section 5307 and State Financial Assistance

This federal assistance does not flow through MoDOT. Federal regulations on the use of capital funds for maintenance have been relaxed. Many traditional operating expenses such as major preventative maintenance are now eligible for capital funding. Amounts of Sec. 5307 funds for St. Louis and Cape Girardeau may include some formula funding for Illinois population and funding for Kansas City and St. Joseph for their Kansas populations.

Section 5316 Jobs Access and Reverse Commute (JARC) program was not reauthorized by Congress in MAP-21, however, these JARC activities are eligible for funding in either the Section 5307 or Section 5311 programs starting with FFY 2013 funds. This grant category funds up to 50 percent of the net cost to provide mobility services designed for new employees and low-income workers. This program will also fund up to 80 percent of capital costs for vehicles, equipment and facilities that support transit services providing mobility to new employees and low-income workers. Urbanized areas that participate in this activity list their respective transit projects in their MPO generated TIP's which are incorporated by reference into the Missouri STIP.

Prior to FFY 2006, Job Access and Reverse Commute grants were awarded by both a Congressional discretionary process as well as by a nationwide competitive process. Starting in FFY 2006, Job Access and Reverse Commute funds were appropriated to each state by formula with formula sub-allocations to direct recipient large urbanized areas (St. Louis, Kansas City and Springfield), as well as formula allocation in aggregate for a state's small urbanized areas and formula allocation for the rural area of each state. Projects in both small urbanized areas and projects in rural areas must be competitively selected on a statewide basis and be derived from locally developed, coordinated public transit – human services transportation plans. The two focuses of these grants are either the transport of low-income or formerly jobless persons to employment and/or the transport of low-income city dwellers to job sites located in suburban areas (reverse commute), such as industrial parks.

Discretionary Transit Capital Grants

Section 5309 – Bus and Bus Facilities

Section 5309 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - Section 5309 through federal fiscal year 2012 was a national discretionary capital grant program funded from the Mass Transit Account of the Highway Trust Fund. It restricts funds to capital assistance for general public transportation systems and/or systems that provide community-wide assistance to all persons with disabilities. These funds are applicable statewide. Eligible recipients of Section 5309 assistance are public entities and not-for-profit organizations that provide general public transit services. Section 5309 assistance was a major source of funding transit capital projects throughout the state. Capital purchases are funded with 80 percent federal and 20 percent local funds.

		STATE FISCAL YEAR PROJECT BUDGETING				
		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019
Section 5309	Federal Asst	2,400,000	1,400,000	0	0	0
	Local Match	600,000	350,000	0	0	0
	TOTAL	3,000,000	1,750,000	0	0	0

From 1993 - 2010 (with the exceptions of 2002, 2006 and 2007), Missouri's Congressional delegation had been able to earmark appropriations of Section 5309 funds on a statewide basis to Missouri for buses and bus facilities. MoDOT administers funding from the statewide appropriation as well as funding specifically designated for rural transit providers. In 2007 and from 2011 through 2012, Congress relinquished this designation of project funding function to the USDOT and these discretionary projects have more recently been selected through a nationwide proposal submission process. The themes or initiatives that USDOT has undertaken with these funds include: Livability Grants, Sustainability Grants, the Transit Investments for Greenhouse Gas and Energy Reduction (TIGGER) Initiative, State of Good Repair Grants as well as Transportation Investment Generating Economic Recovery (TIGER) Grants.

Availability of local matching funds and sufficient funds to operate vehicles over their useful life must be demonstrated prior to award.

Enhanced Mobility of Seniors and Individuals with Disabilities Program Federal Transit Administration – Section 5310

Section 5310 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - Section 5310 funds provide capital assistance and operating assistance for non-profit organizations as well as governmental entities that provide service to senior citizens and persons with disabilities. Beginning in federal fiscal year 2013, Congress consolidated into Section 5310 the activities of the former Section 5317 New Freedom Program through passage of the transportation authorization legislation, Moving Ahead for Progress in the 21st Century Act (MAP-21). Section 5317, New Freedom projects are now eligible activities under Section 5310. Starting with federal fiscal year 2013, these funds are annually apportioned to each of the large urbanized areas (St. Louis, Kansas City and Springfield), apportioned separately on an aggregate basis to the small urbanized areas (between 50,000 – 199,999 population) and annually apportioned separately in aggregate to the non-urbanized / rural areas of the state. The department administers the funds apportioned to the non-urbanized /rural as well as small urbanized portions of Missouri. The department is also a co-recipient administrator of these funds in the St. Louis and Springfield urbanized areas. Projects to be funded by Section 5310 must be derived from a locally developed, coordinated public transit – human services transportation plan. The project budgeting for state fiscal year 2015 assumes the application both federal fiscal year 2013 and federal fiscal year 2014 funds.

Table 7-9 Section 5310 Funding		STATE FISCAL YEAR PROJECT BUDGETING				
		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019
Section 5310	MoDOT Administered Federal Funds	8,000,000	3,200,000	3,200,000	3,200,000	3,200,000
	Local Match	2,000,000	800,000	800,000	800,000	800,000
	TOTAL	10,000,000	4,000,000	4,000,000	4,000,000	4,000,000

Non-urbanized funds are programmed directly by the department on the basis of trips provided by the recipient organizations with extra weight given to medical, nutritional and other necessary trips. Replacement vehicles are given a priority over expansion vehicles. Financial capability to provide the local match and operate the vehicles and/or to deploy service based projects must be demonstrated.

Non-Urbanized Area Public Transportation Formula Grants Federal Transit Administration Section 5311 and State Funds

Section 5311 of Chapter 53, Title 49, U.S.C. Federal Transit Administration - Section 5311 provides capital and operating assistance to public transportation systems in non-urbanized areas. A non-urbanized area is an area outside a city of 50,000 or more inhabitants and its densely settled fringe areas. Section 5311 projects include planning and technical studies, system design, capital acquisition, and assistance in defraying operating losses. Intercity over-the-road bus services are also eligible for funding.

Eligible recipients of Section 5311 assistance include public bodies, private not-for-profit corporations and operators of service that provide general public transportation services. Private for-profit providers of service are eligible through purchase of service agreements with a local public body for the provision of public transportation services. For-profit intercity carriers are also eligible.

Section 5311 project selection, priority is given to local public bodies because they meet the programs primary objective of offering general public service. Not-for-profit organizations are also allowed to participate in the program if they meet program criteria and have available local matching funds. Capital projects are funded 80 percent federal and 20 percent local. Operating assistance projects may receive up to 50 percent of their net loss from this program. As federally required, 15% of the Section 5311 funds are reserved to support intercity bus service. In the event that eligible applicants do not express an interest in supporting intercity bus service or, if the requests received are less than the reserved amount, then the funding reserved for intercity bus will be transferred to the rural public transit service. The Department may use up to 10% of its Section 5311 apportionment for program administration, planning and technical assistance, with no state match required. Ten percent of Section 5311 funds will be reserved at the discretion of the department to allow funding for emerging services. Forty percent of the remaining funds are allocated to non-urbanized city systems, with 60 percent going to county and regional operations. Changes in federal funds will be allocated proportionately to the 40% / 60% categories, then by population served by the applicant transit service organization within each category.

		STATE FISCAL YEAR PROJECT BUDGETING				
		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019
Section 5311	Federal Asst	17,350,000	13,880,000	13,880,000	13,880,000	13,880,000
	State Asst	140,219	140,219	140,219	140,219	140,219
	Passenger Revenue	262,000	262,000	262,000	262,000	262,000
	Local Govt Revenue	5,000,000	5,000,000	5,000,000	5,000,000	5,000,000
	TOTAL	22,752,219	19,282,219	19,282,219	19,282,219	19,282,219

MoDOT administers these Sec. 5311 federal funds for eligible transit program costs. State funds are 100 percent of the appropriation with 3 percent held in the governor's reserve. MoDOT does not receive local matching funds. Changes in individual contract amounts up to 10 percent may be made as circumstances warrant. In FFY 2013, Congress eliminated the former Section 5316 Job Access and Reverse Commute program, but made those activities in non-urbanized areas eligible for funding in the Section 5311 program.

Rural Transit Assistance Program Section 5311 (b)

Section 5311 (b) of Chapter 53, Title 49, U.S.C. Federal Transit Administration - The department administers the Federal Transit Administration Section 5311 (b) Rural Transit Assistance Program for the development and implementation of training, technical assistance and other support services for use by local transit providers in non-urbanized areas. No matching funds are required.

Federal Transit Administration allocates Rural Transit Assistance Program funds to each state based on an administrative formula. Federal Transit Administration first allocates \$65,000 to each state, and then distributes the balance of the annual funding according to the non-urbanized population of each state.

Transit Jobs Access and Reverse Commute Grant Program

Section 5316

Section 5316 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration - This program was not reauthorized by Congress in MAP-21, however, Section 5316 Jobs Access and Reverse Commute (JARC) activities are eligible for funding in either the Section 5307 or Section 5311 programs starting with FFY 2013 funds. The department administers Federal Transit Administration Section 5316 JARC program grants either earmarked to the state or designated to rural and small urban recipients prior to 2006 or appropriated to rural and small urbanized areas by formula in FFY 2006 through FFY 2012. This grant category funds up to 50 percent of the net cost to provide mobility services designed for new employees and low-income workers. This program will also fund up to 80 percent of capital costs for vehicles, equipment and facilities that support transit services providing mobility to new employees and low-income workers.

Prior to FFY 2006, Job Access and Reverse Commute grants were awarded by both a Congressional discretionary process as well as by a nationwide competitive process. Starting in FFY 2006, Job Access and Reverse Commute funds were appropriated to each state by formula with formula sub-allocations to direct recipient large urbanized areas (St. Louis, Kansas City and Springfield), as well as formula allocation in aggregate for a state's small urbanized areas and formula allocation for the rural area of each state. Projects in both small urbanized areas and projects in rural areas must be competitively selected on a statewide basis and be derived from locally developed, coordinated public transit – human services transportation plans. The two focuses of these grants are either the transport of low-income or formerly jobless persons to employment and/or the transport of low-income city dwellers to job sites located in suburban areas (reverse commute), such as industrial parks.

New Freedom Transit Grant Program Section 5317

Section 5317 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration - This program was not reauthorized by Congress in MAP-21; however, New Freedom activities are eligible for funding in the Section 5310 program starting with FFY 2013 funds. The department administers Federal Transit Administration Section 5317 New Freedom formula program grants in a program created by Congress in the federal transportation reauthorization legislation, SAFETEA-LU as appropriated for rural and small urbanized areas by formula. This grant category funds up to 50 percent of the net cost to provide new mobility services, primarily for persons with disabilities when those mobility services are beyond the requirements of the Americans with Disabilities Act (ADA). This program will also fund up to 80 percent of capital costs for vehicles, equipment and facilities that support new transit services, primarily for persons with disabilities, for services beyond the requirements of ADA, or facility accessibility improvements beyond the requirements of the ADA not otherwise incorporated in an existing or planned project.

Starting in FFY 2006, New Freedom funds are appropriated to each state by formula with formula sub-allocations to direct recipient large urbanized areas, as well as formula allocations for a state's small urbanized areas and formula allocations for the rural area of each state. New Freedom projects in small urbanized areas and projects in rural areas must be competitively selected on a statewide basis and be derived from locally developed, coordinated public transit – human services transportation plans.

State Safety Oversight Formula Grants Federal Transit Administration – Section 5329

Section 5329 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration - The department administers Federal Transit Administration Section 5329 State Safety Oversight formula program grants created by Congress in the federal transportation authorization legislation, Moving Ahead for Progress in the 21st Century Act (MAP-21). Each state with transit rail systems not regulated by the Federal Railroad Administration is eligible to establish a state safety oversight (SSO) program with the responsibility to oversee fixed guide way public transportation safety and enforce federal law for rail fixed guide way public transportation safety. These Section 5329 grants fund up to 80% of the cost to administer and operate the state safety oversight program. Grant matching funds may not be derived from the transit systems subject to the state safety oversight.

Bus and Bus Facilities Program Formula Grants Federal Transit Administration – Section 5339

Section 5339 of Chapter 53, Title 49, U.S.C. - Federal Transit Administration - The department administers Federal Transit Administration Section 5339 Bus and Bus Facilities formula program grants created by Congress in the federal transportation authorization legislation, Moving Ahead for Progress in the 21st Century Act (MAP-21). This formula program replaces the discretionary Section 5309 program with respect to transit bus and transit bus related facility project funding. This grant category funds up to 80% of the cost to replace, rehabilitate and purchase buses and related equipment as well as construction of bus related facilities. These funds are annually apportioned to each of the large urbanized areas (St. Louis, Kansas City and Springfield), apportioned separately on an aggregate basis to the small urbanized areas (between 50,000 – 199,999 population) and annually apportioned separately in aggregate to the non-urbanized / rural areas of the state. The department administers the funds apportioned to the non-urbanized /rural as well as small urbanized portions of Missouri. For state fiscal year 2015, apportionments from federal fiscal years 2013 and 2014 are applied.

Missouri Elderly and Handicapped Transportation Assistance Program

The Missouri Elderly and Handicapped Transportation Assistance Program (MEHTAP) is a state funded program and provides these state funds to approximately 200 non-profit organizations statewide who offer transportation services to the senior citizens and persons with disabilities at below-cost rates. State general revenue funds are divided among grantees taking into account ridership, costs and alternative services available (208.250 RSMo). Trips weighted by type (medical, essential services, recreation) determine total ridership. Costs are estimated by total vehicle miles operated by each recipient. Weighted trips and vehicle miles are given equal weights in computing a preliminary formula division of funds.

The preliminary formula division is adjusted for alternative services available, local resources and special client needs. Some discretion is exercised to adjust for inequities stemming from longevity in the program. MEHTAP funding is allocated by the Department in accordance with 208.250 – 208.265 RSMo and its state regulation 7 CSR 10-7.010 based on the following criteria: need for service, trip purpose, cost effectiveness, and cost and availability of alternative service.

Each year, project funding is contingent upon receipt of applications from eligible providers and an appropriation from the state legislature. Federal, local and private matching funds of over \$35,000,000 do not flow through MoDOT.

Waterways

Missouri is fortunate to have over 1,000 miles of navigable waterways on the Mississippi and Missouri rivers, which provide tremendous opportunities for waterborne commerce. In 2013, approximately 5 million tons of material, was handled through Missouri’s public port authorities. Barge transport provides an environmentally friendly way to transport large amounts of material at a lower cost compared to other modes. One barge can hold the equivalent of 13 railcars or 58 trucks. The Missouri General Assembly appropriates funding for waterway programs from general revenue and/or the State Transportation Fund. Projects will be added to the MoDOT STIP if funds are appropriated by the General Assembly.

Port Authority Administrative Grants - Ports apply for the administrative grants annually. The administrative grants are used to reimburse public port authorities for administrative costs, such as salaries, benefits, travel, office expenses and utilities. These grants are subject to an annual audit and do not require a match. The administrative grants were established to assist public port authorities as they establish their economic base (i.e. “keep the lights on”). New language was added to allow funds to be used for either administrative expenses or capital projects. This program has received an appropriation for FY 2011 of \$359,747. In FY 2012 it received \$374,747, and \$375,000 was appropriated in both FY 2013 and FY 2014. The program currently provides assistance to the following port authorities:

Howard/Cooper County Regional	Jefferson County	Kansas City
Lewis County/Canton	Marion County	Mid-America Port Commission
Mississippi County	New Bourbon Regional	New Madrid County
Pemiscot County	Pike/Lincoln Regional	St. Joseph Regional
St. Louis County	St. Louis City	Southeast Missouri Regional

Table 7-18 Port Authority Administrative Grants

Program		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019
Waterways Program	State Cost	375,000	375,000	375,000	375,000	375,000
Administrative Port	Total	375,000	375,000	375,000	375,000	375,000

Waterways

Ferry Boat Operating Assistance - The State of Missouri currently subsidizes two public ferry boat operations in St. Genevieve and Mississippi Counties. Annually \$88,000 was appropriated to support each ferryboat operation from FY 2010 through FY 2014. During this same time the ferry services transported on average 54,000 passengers and 23,000 vehicles per year. The State of Kentucky also matches dollar for dollar support for the Mississippi County ferry boat.

Table 7-19 Ferry Boat Operating Funding

Program		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019
Waterways Program	State Cost	176,000	176,000	176,000	176,000	176,000
Ferryboat Operating Assistance	Total	176,000	176,000	176,000	176,000	176,000

Port Capital Improvement Program - Capital improvement grants assist ports with capital expenditures, such as dock construction, mooring dolphins, access improvements, utility extensions, and general site development. Grants require a 20 percent local match and are subject to audit. There was little state funding support for port capital projects until FY 2007 when \$1,500,000 was appropriated from the State Transportation Fund. In FY 2008 there was no funding for the program but in FY 2009 the program received \$6,650,000 from General Revenue and the MHTC allocated \$4,500,000 from America Recovery and Reinvestment Act discretionary funds for port capital improvements. In FY 2014, the program received \$3 million from General Revenue. It is difficult to predict funding in future years. The Missouri Port Authority Association and MoDOT have cooperatively completed an assessment and prioritization of port infrastructure needs detailing more than \$65 million in critical/immediate port capital improvement needs. Should additional capital funds be appropriated, grants will be awarded based on this collaboratively developed list.

Table 7-20 Port Capital Improvement Funding

Program		7/2014- 6/2015	7/2015- 6/2016	7/2016- 6/2017	7/2017- 6/2018	7/2018- 6/2019

Freight

Freight Enhancement Program - The objective of the newly developed Freight Enhancement Program is to focus on improving and maintaining the high priority freight assets and corridors that are critical to the movement of freight into, out of, within, and through the state. This process is based on partnerships with freight stakeholders and public officials to identify the greatest freight movement needs and remove barriers to efficient movement of goods through capital improvements to the system. In FY 2014, this program received \$850,000 from the State Transportation Fund. Projects will be added to the MoDOT STIP if funds are appropriated by the General Assembly.

Missouri's transportation assets in rail, water, interstate highways, and airports combined with Missouri's strategic location provides great opportunity to become the freight center of the nation. As reported in Missouri's 2011 Final Report of the Strategic Initiative for Economic Growth, freight haulers and logistics were identified as one of seven target clusters for potential economic growth in the future.

Missouri's strategic location is within 500 miles of:

- 43 percent of the U.S. population.
- 41 percent of total U.S. buying power.
- 44 percent of total U.S. wholesale trade.
- 44 percent of all U.S. manufacturing plants.
- 7 of the 25 top international cargo hubs in the U.S

Section 8 – Certification and Federal-Aid Project Oversight

Certification

MoDOT certifies that the transportation planning process is being carried out in accordance with the following requirements in 23 CFR 450.218(a).

1. 23 U.S.C. 134 and 135, 49 U.S.C. 5303 and 5304, and this part;
2. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
3. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
4. Section 1101 (b) of the 2005 Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
5. 23 CFR part 230 regarding implementation of an equal opportunity program on Federal and Federal-aid highway construction contracts;
6. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 *et seq.*) and 49 CFR parts 27, 37, and 38;
7. In non-attainment and maintenance areas, sections 174 and 176 (c) and (d) of the 1990 Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
8. 42 U.S.C. 6101 regarding the Older Americans Act, as amended prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
9. 23 U.S.C. 324 regarding the prohibition of discrimination on gender; and
10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

In addition to the above specifically stated requirements, 23 CFR 450.216 describes a number of requirements that MoDOT ensures are met with submission of the Statewide Transportation Improvement Program, or STIP. These requirements are as follows.

1. Public involvement was provided for in the STIP development as required by 23 CFR 450.210(a).
2. The metropolitan planning area Transportation Improvement Programs are included by reference, without modification, in the STIP and have been approved by the Governor of Missouri.
3. In non-attainment and maintenance areas, the STIP contains only transportation projects found to conform, or from programs that conform, to the air quality requirements.

4. The STIP contains only transportation projects consistent with the long-range statewide plan.
5. The STIP is financially constrained by year as required.
6. The STIP includes a descriptive list of priority transportation projects to be carried out in the first four years.
7. The STIP contains all capital and non-capital transportation projects or identified phases of transportation projects requiring action by FHWA or FTA.
8. The STIP contains all regionally significant projects requiring action by the FHWA and FTA.

Federal-Aid Project Oversight Agreement

Background and Purpose

The Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991, the Transportation Equity Act for the 21st Century (TEA-21) of 1998, the Safe, Accountable, Flexible, Efficient Transportation Act: A Legacy for Users (SAFETEA-LU) of 2005 and the Moving Ahead for Progress in the 21st Century Act of 2012 (MAP-21) allow States to assume certain responsibilities for the Federal Highway Administration in some National Environmental Policy Act approvals and in the design, construction, award and inspection of certain Federal-aid projects.

Section 106 of Title 23, Project Approval and Oversight, requires an agreement between the Secretary of Transportation and the State relating to the extent to which the State assumes nearly all FHWA responsibilities for projects under Title 23 for project development (plans, specifications, and estimates), contract awards, and inspections/final acceptance of Federal-aid highway projects. The FHWA Missouri Division and MoDOT updated the FHWA/MoDOT Stewardship and Oversight Agreement on February 2, 2007, and executed Addendum I on January 13, 2011. The agreement outlines the basic oversight responsibilities and roles of the two agencies in administering the Federal-aid Program in Missouri. The FHWA Missouri Division's website link is: <http://www.fhwa.dot.gov/modiv/oversite.htm>. The following is a summation regarding oversight responsibilities.

Project Oversight Responsibilities

Project Oversight Responsibilities can be identified through FHWA's Risk-Based Stewardship and Oversight model. Risk-Based Project Stewardship and Oversight has three main components: 1) data-driven compliance assurance, i.e., the Compliance Assessment Program (CAP), 2) risk-based stewardship and oversight of Projects of Division Interest (PoDI) and 3) Projects of Corporate Interest (PoCI).

Compliance Assessment Program (CAP) – The purpose of the CAP is to provide reasonable assurance, at both the national and local level, that Federal-aid highway design and construction projects are in compliance with key federal requirements. This is accomplished through FHWA compliance reviews in the areas of Civil Rights, Contract Administration, Emergency Relief, Environment, Finance, Material Quality, Planning, Realty, and Work Zones. FHWA reviews will be coordinated with appropriate MoDOT staff, as necessary. Unless a CAP project is identified as a PoDI, MoDOT will assume oversight responsibility for all CAP projects. The CAP sample size for 2014 was 60.

Projects of Division Interest (PoDI) - FHWA's level of involvement (oversight) on PoDI's will vary by project, dependent upon identified risk elements specific to the individual projects. FHWA involvement on PoDI's will be developed based upon project specifics such as project complexity, cost, scope of work to be constructed, environmental constraints or commitments, impacts to traffic, additions or modification to interstate access, etc. On low risk projects, such as those of low complexity or with minimal traffic impacts, FHWA involvement may be limited to elements developed during preliminary design stages, while complex projects may require involvement throughout the design phase up to, and including, review and approval of the final Plans, Specifications, and Estimates. Construction risk will be assessed in much the same manner, projects of low complexity or with minimal traffic impacts, may require a lesser level of FHWA involvement during construction, while complex projects may require involvement in all facets of the construction. FHWA involvement during both design and construction will be developed in coordination with MoDOT. A PoDI can be any project with Federal-aid whether administered by MoDOT or a Local Public Agency. MoDOT assumes oversight responsibility for all non-PoDI projects.

Projects of Corporate Interest (PoCI) – PoCI are a subset of PoDI that are so significant at a corporate level that FHWA assesses stewardship and oversight resource needs at a higher level. The New Mississippi River Bridge Project (Stan Musial Veterans Memorial Bridge) was identified as a PoCI for 2014. FHWA involvement on PoCI's may vary, depending on identified risks specific to the individual project. FHWA involvement during both design and construction will be developed in coordination with MoDOT.

Identification of CAP, PoDI, and PoCI Projects

CAP - The project population for each FHWA Division Office will be randomly identified by FHWA HQ's Program Management Improvement Team on April 1 of each year and will include all Federal-aid projects authorized for construction or advance construction within the last 12 months.

PoDI – PoDI's are identified collaboratively by MoDOT and FHWA that have an elevated level of risk (threat or opportunity) to the agency's successful delivery of federal highway program. In addition to regular amendments of MoDOT's Statewide Transportation Improvement Program (STIP), MoDOT and the FHWA will conduct an annual review of the MoDOT STIP to identify the projects that will be administered as PoDI by the FHWA. CAP projects are eligible to be identified as PoDI.

PoCI – FHWA’s Missouri Division will identify potential PoCI. The list of potential PoCI will be vetted by FHWA’s leadership to identify the final list of PoCI.

Obligation of Funds

MoDOT will not submit requests for obligation of funds on any federal-aid construction project until the National Environmental Policy Act approval process has been completed, right of way clearance has been approved, and the projects for which federal funds are being requested are listed in the MoDOT Statewide Transportation Improvement Program.

Other Oversight Agreement Provisions

This agreement is made with the following understandings.

- MoDOT will administer all projects previously authorized prior to the effective date of this agreement under Certification Acceptance as though the projects were authorized under the provisions of this agreement.
- All non-Title 23 U.S.C. requirements will continue to be subject to the Federal Highway Administration project review, oversight, and approval.
- All projects on the National Highway System (interstate and non-interstate) will conform to MoDOT adopted design and construction standards as approved by the Federal Highway Administration. Amendments or revisions to these standards are subject to the Federal Highway Administration’s review and approval.
- All non-National Highway System projects shall be designed, constructed, operated and maintained in accordance with state laws; regulations; directives; and safety, design and construction standards.
- Federal Highway Administration will complete a final inspection and final acceptance on the Federal Highway Administration full-oversight projects. MoDOT assumes this responsibility for all other projects. MoDOT will take action to close projects in a timely manner.
- This agreement does not preclude the Federal Highway Administration from observing a federal-aid highway project under MoDOT responsibility, including those under a local public agency agreement, should the project contain unique features, if

unusual circumstances arise, or should such projects be party to inclusion in joint agency MoDOT Quality Assurance Reviews or Federal Highway Administration Process Review and Evaluations.

- Federal Highway Administration and MoDOT enter into this agreement to conduct project oversight activities in accordance with the above stipulated agreement provisions. The effectiveness of these oversight responsibilities will be evaluated periodically and adjustments made upon mutual agreement.

Certification

It is hereby certified that MoDOT will follow all federal and state laws, regulations and directives for the design, construction, operation and maintenance of all federal-aid projects.

Section 9 – Transportation Improvement Programs (TIPS)

Missouri Metropolitan Planning Organizations (MPO) Transportation Improvement Programs (TIP)

RE: FHWA/FTA Approval of the Statewide (Non MPO) Portion
of the Missouri FY 2015-2019 State Transportation
Improvement Program (STIP)

Dear Mr. Nichols:

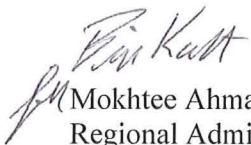

As requested in your letter dated August 6, 2014, the Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) have reviewed the statewide Missouri FY 2015-2019 (STIP). The Missouri Highway and Transportation Commission (MHTC) approved the FY 2015-2019 STIP on August 6, 2014.

In accordance with 23 CFR 450.218(b)(1), we have determined that this STIP is based on a transportation planning process that substantially meets the requirements of 23 U.S.C 135, 49 U.S.C. 5304, and 23 CFR 450 Subpart B. Based on our review, this FY 2015-2019 STIP update is approved.

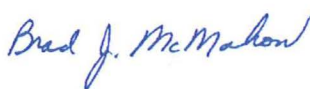

Please be advised that the Missouri STIP includes transit projects programmed to utilize Section 5309 discretionary funds. Since the availability of Section 5309 funds is uncertain, sponsors of those projects proposed but not subsequently funded may need to explore other sources of funding.

If you have any questions, please contact Mr. Brad McMahon at FHWA (573) 638-2609 or Mark Bechtel at FTA (816) 329-3937.

Sincerely,

Mokhtee Ahmad
Regional Administrator
Federal Transit Administration
